

Short Term Hospitalization Projections

Posterior Distribution, niter = 40

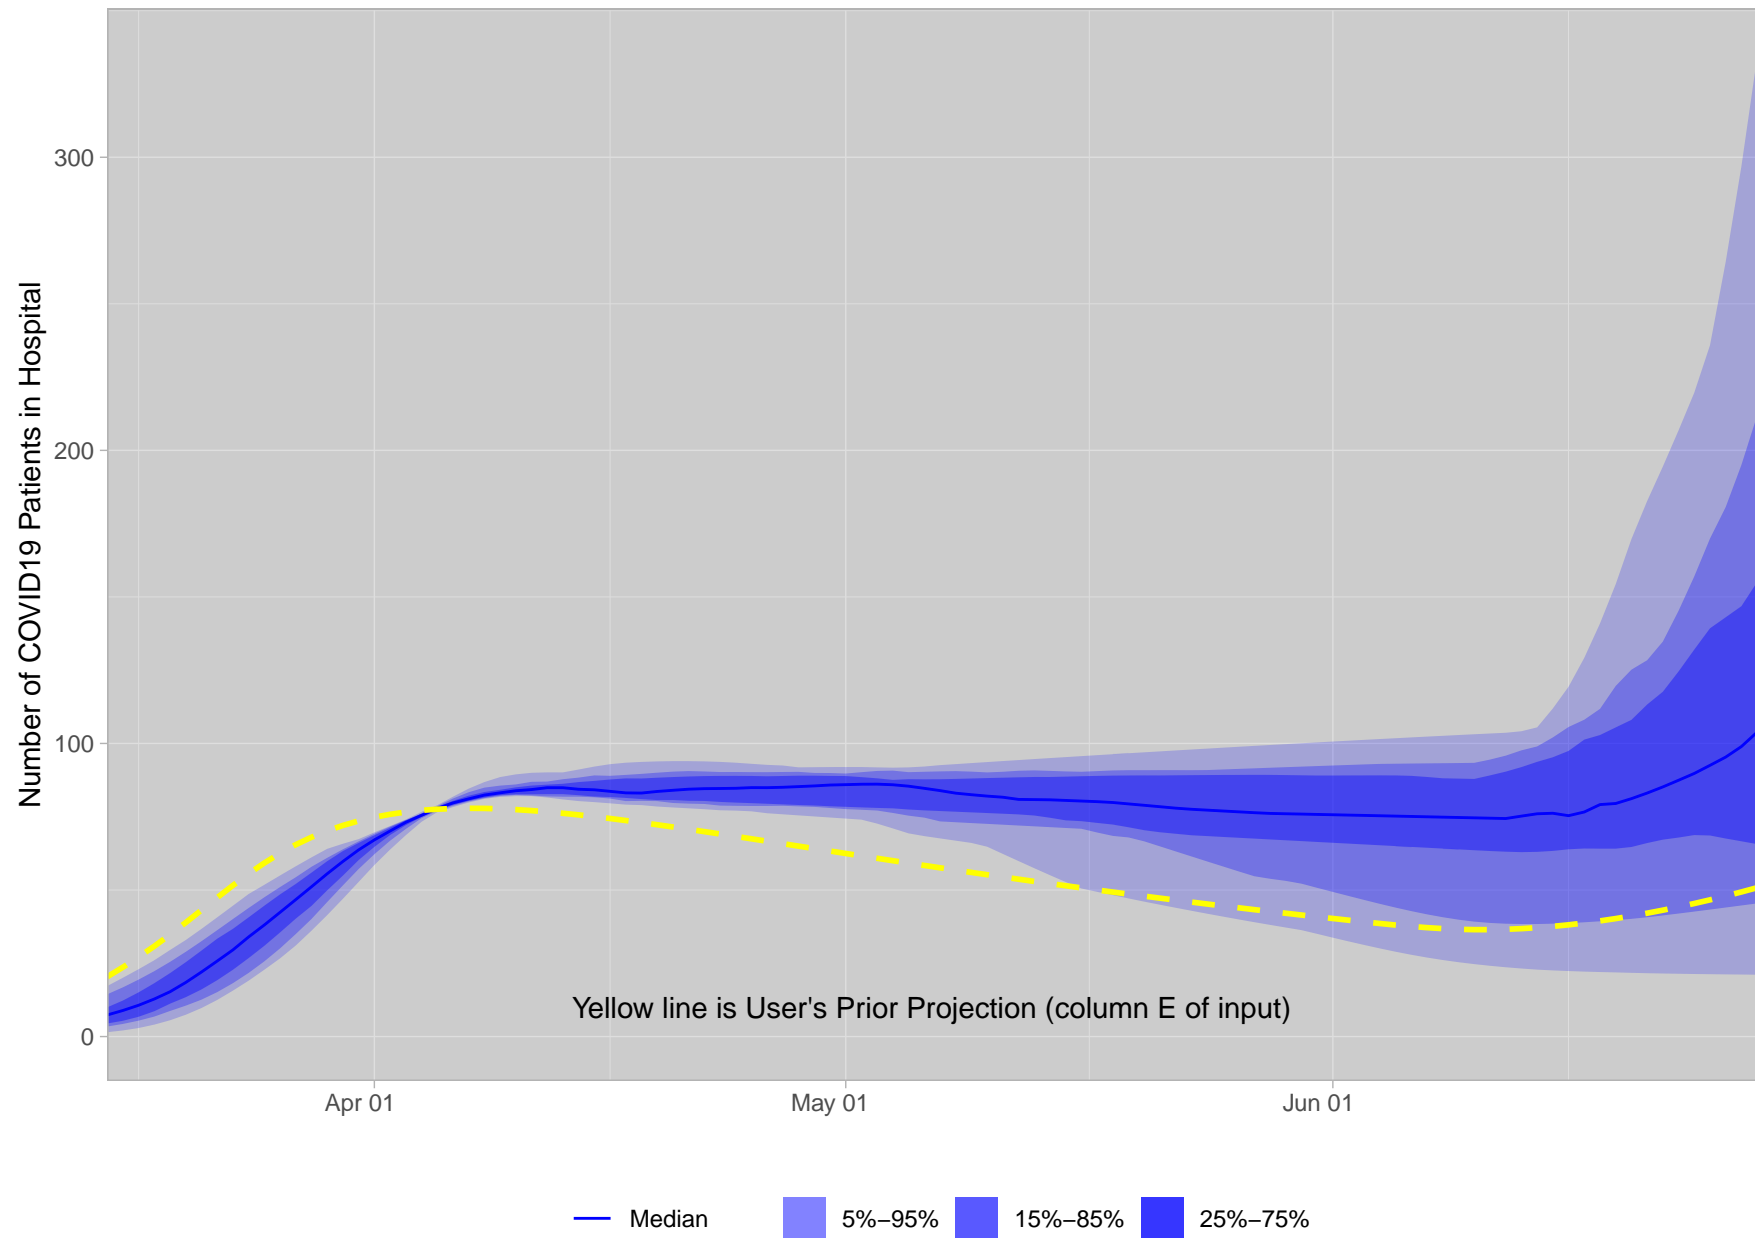

Very low number of iterations, do not use for inference

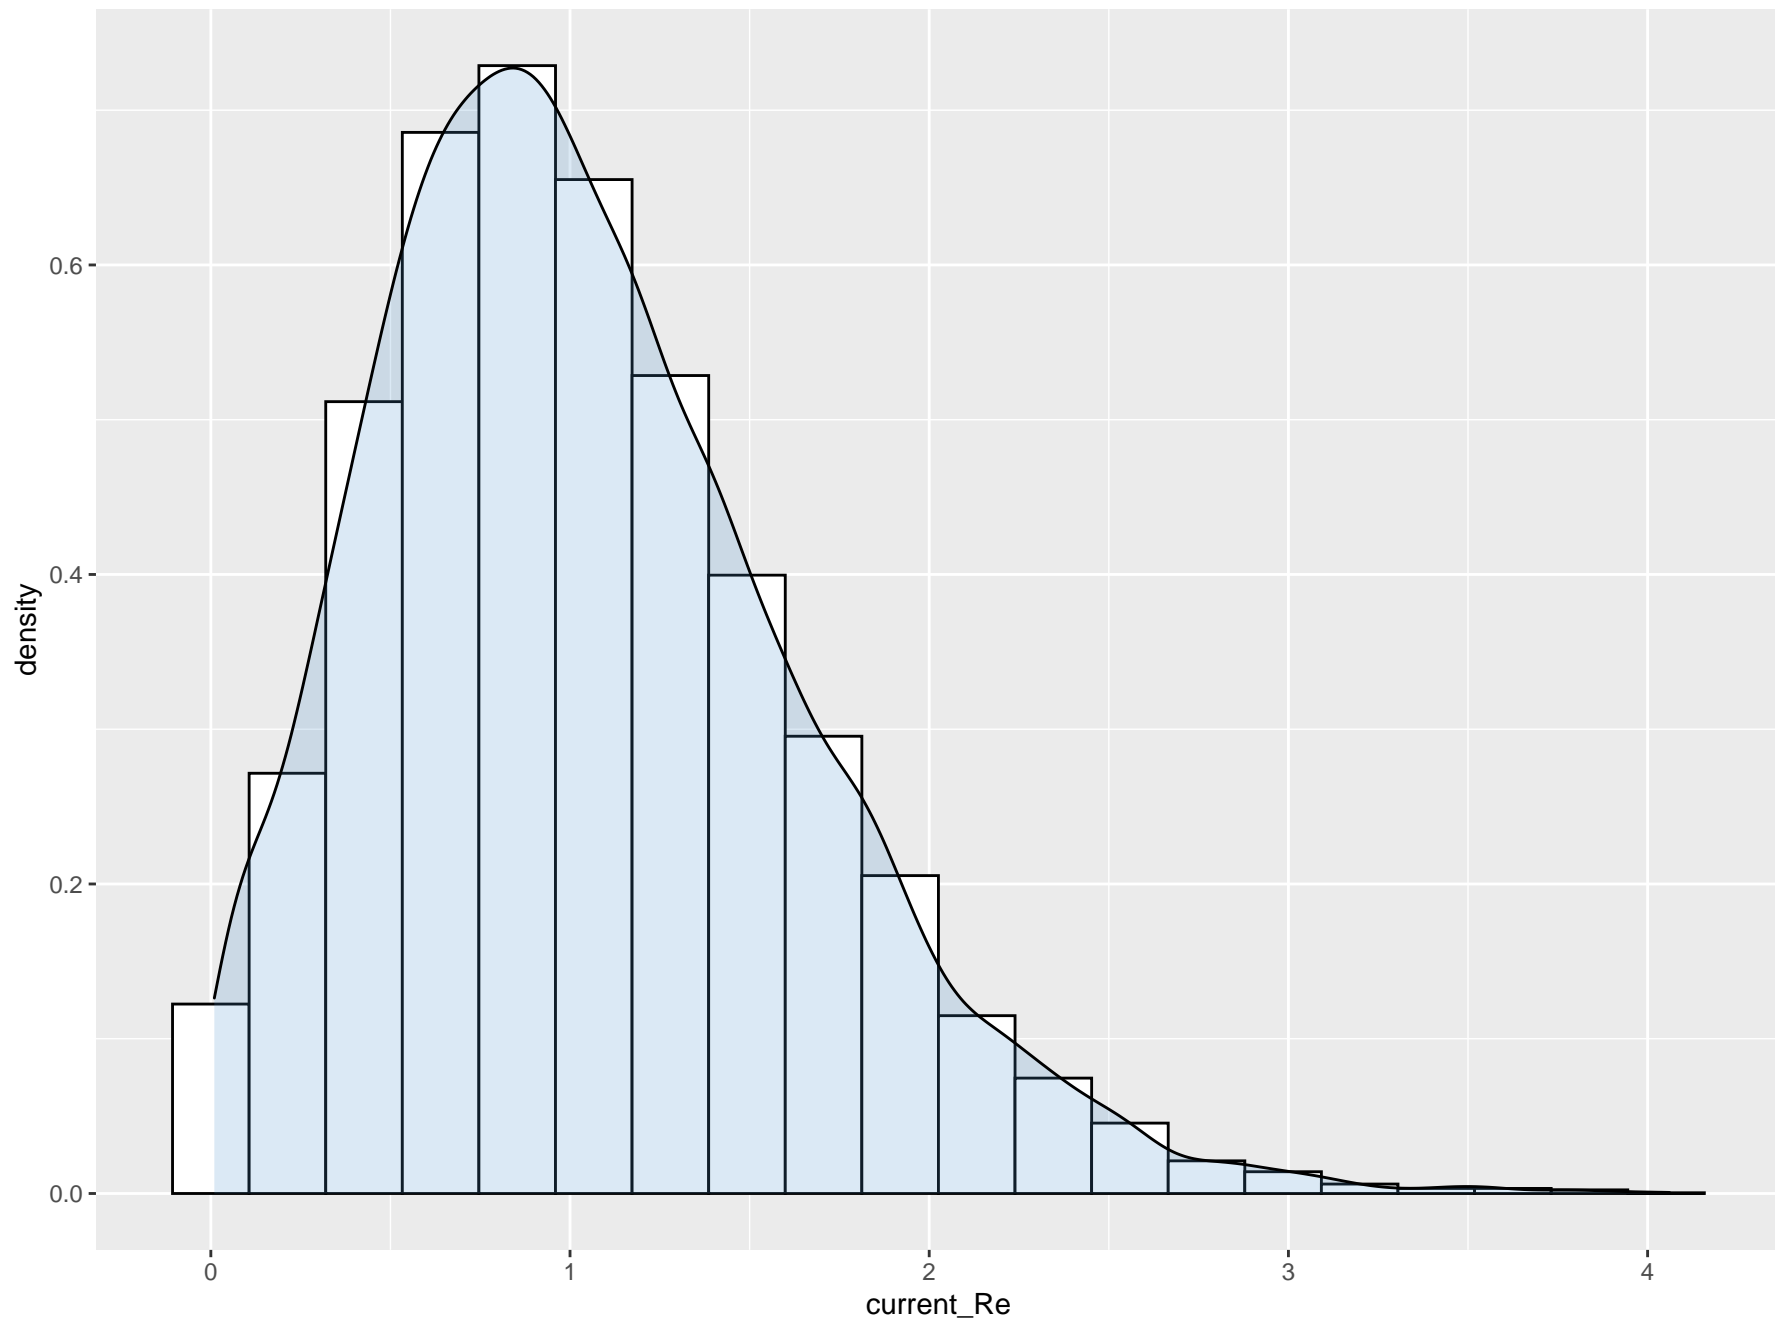

Long Term Hospitalization Projections

Posterior Distribution, niter = 40

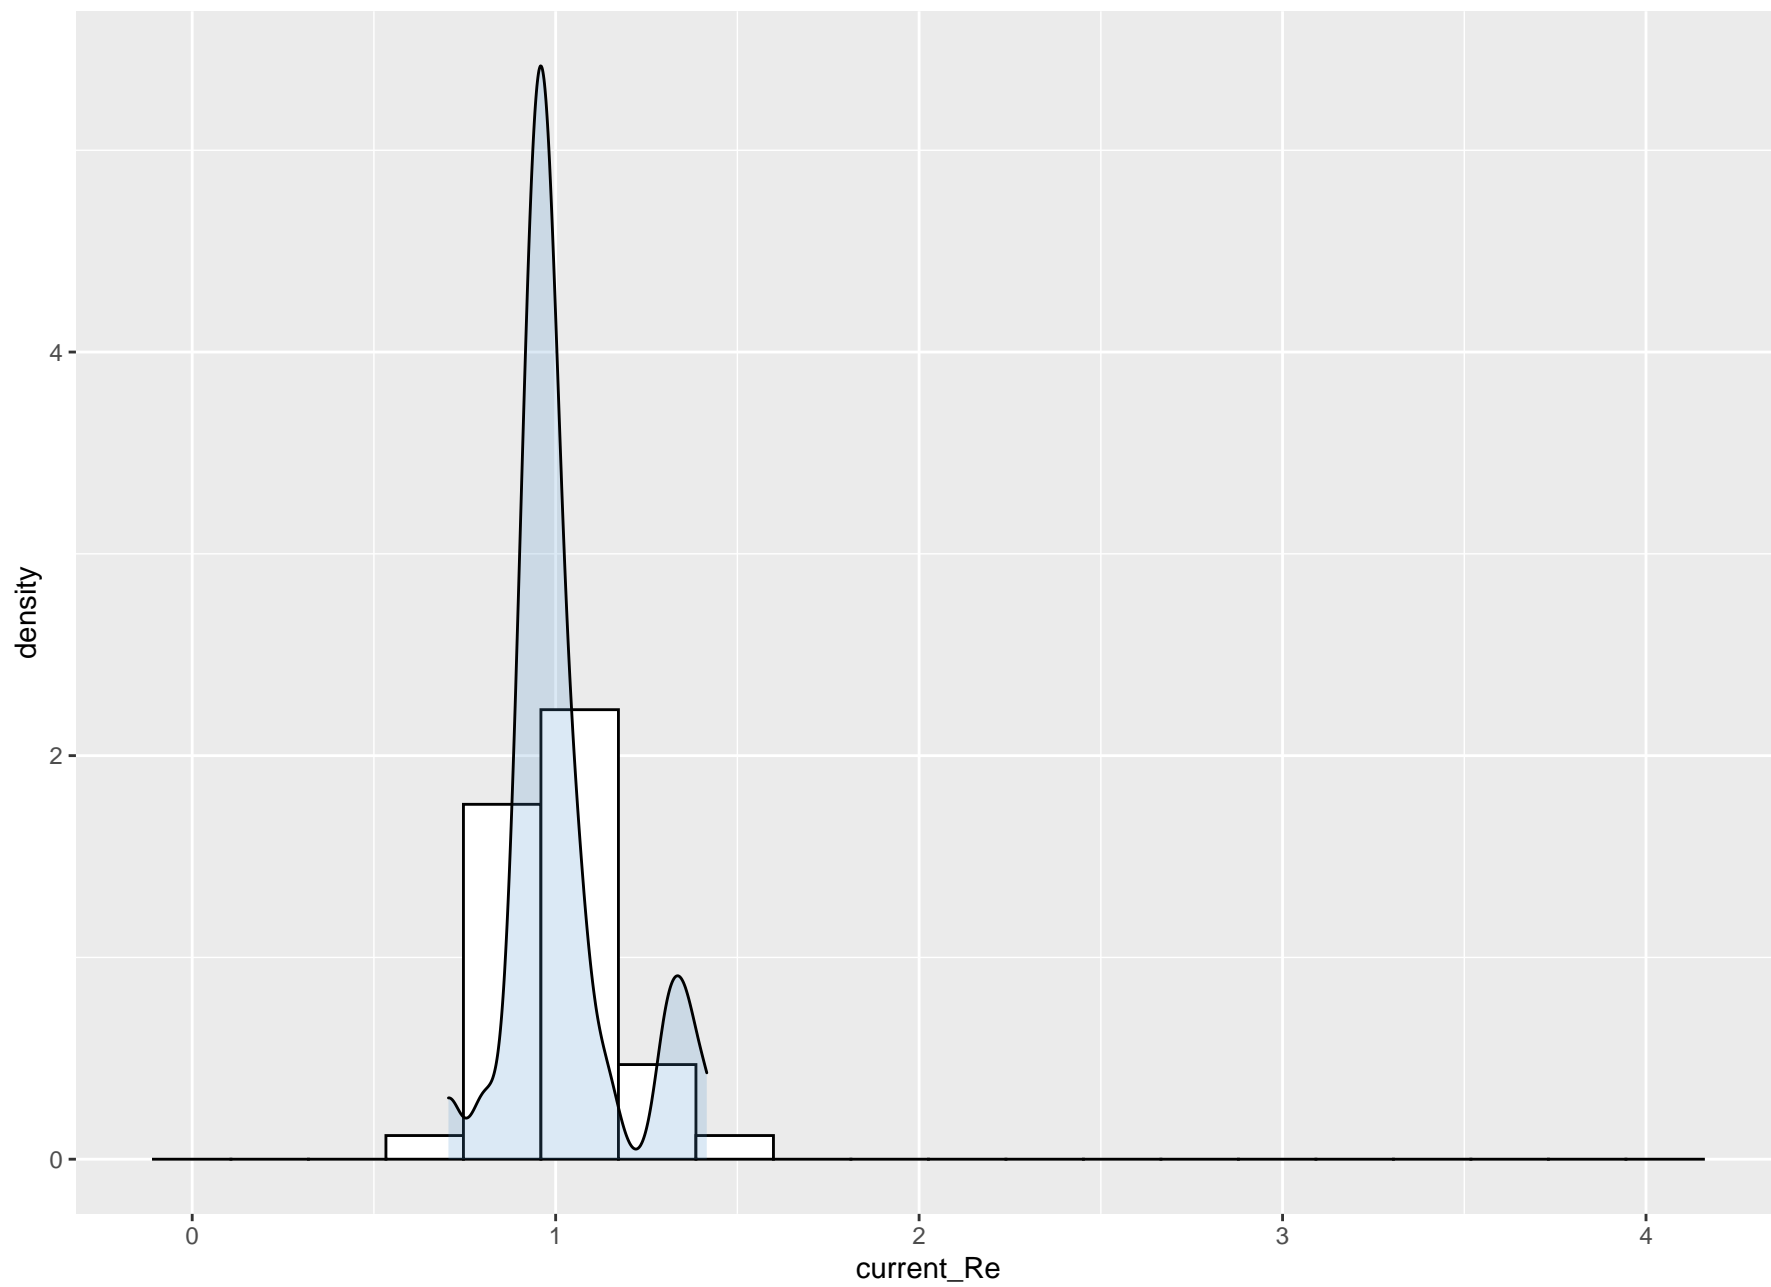

Very low number of iterations, do not use for inference

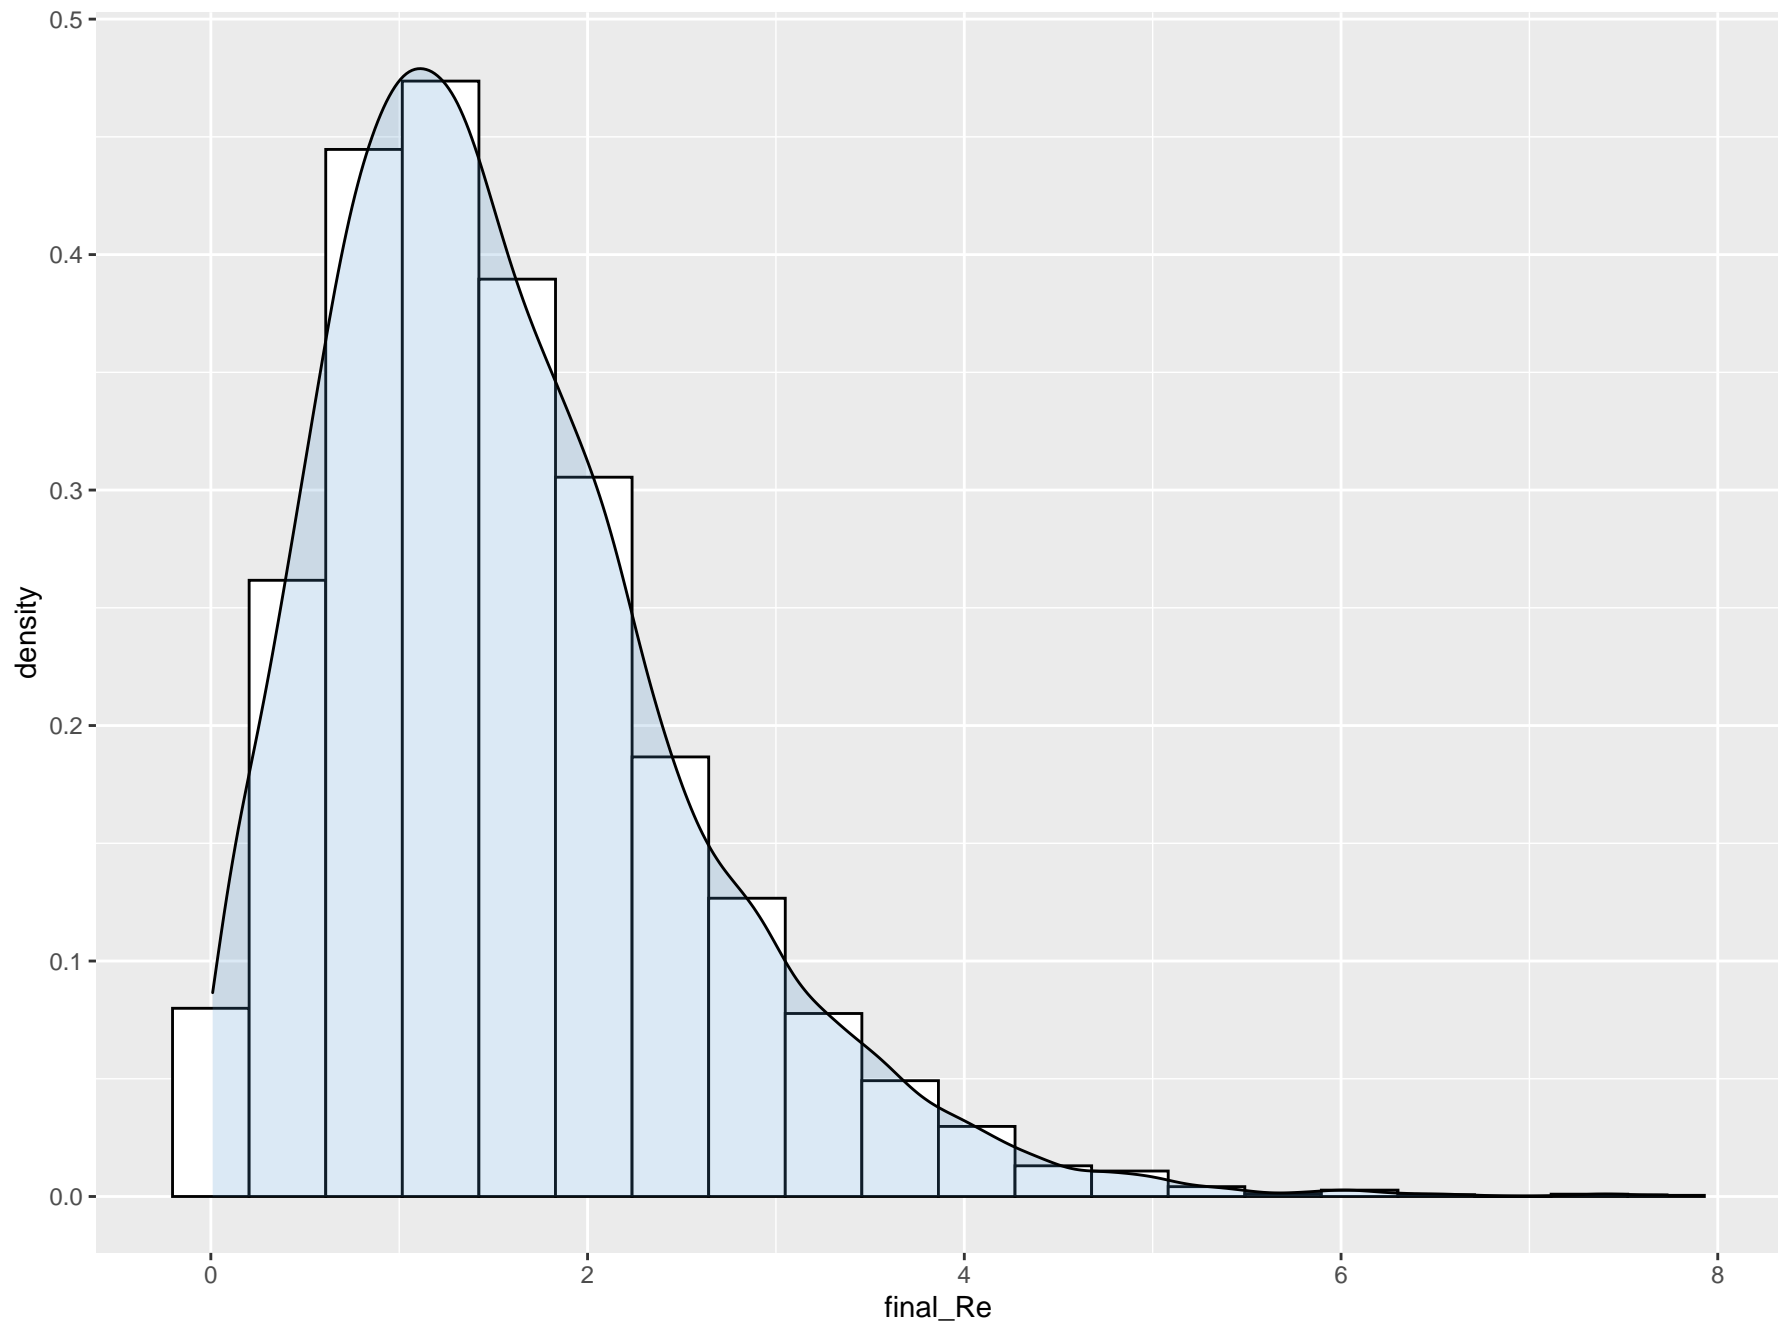

Prior Distribution, niter = 10000

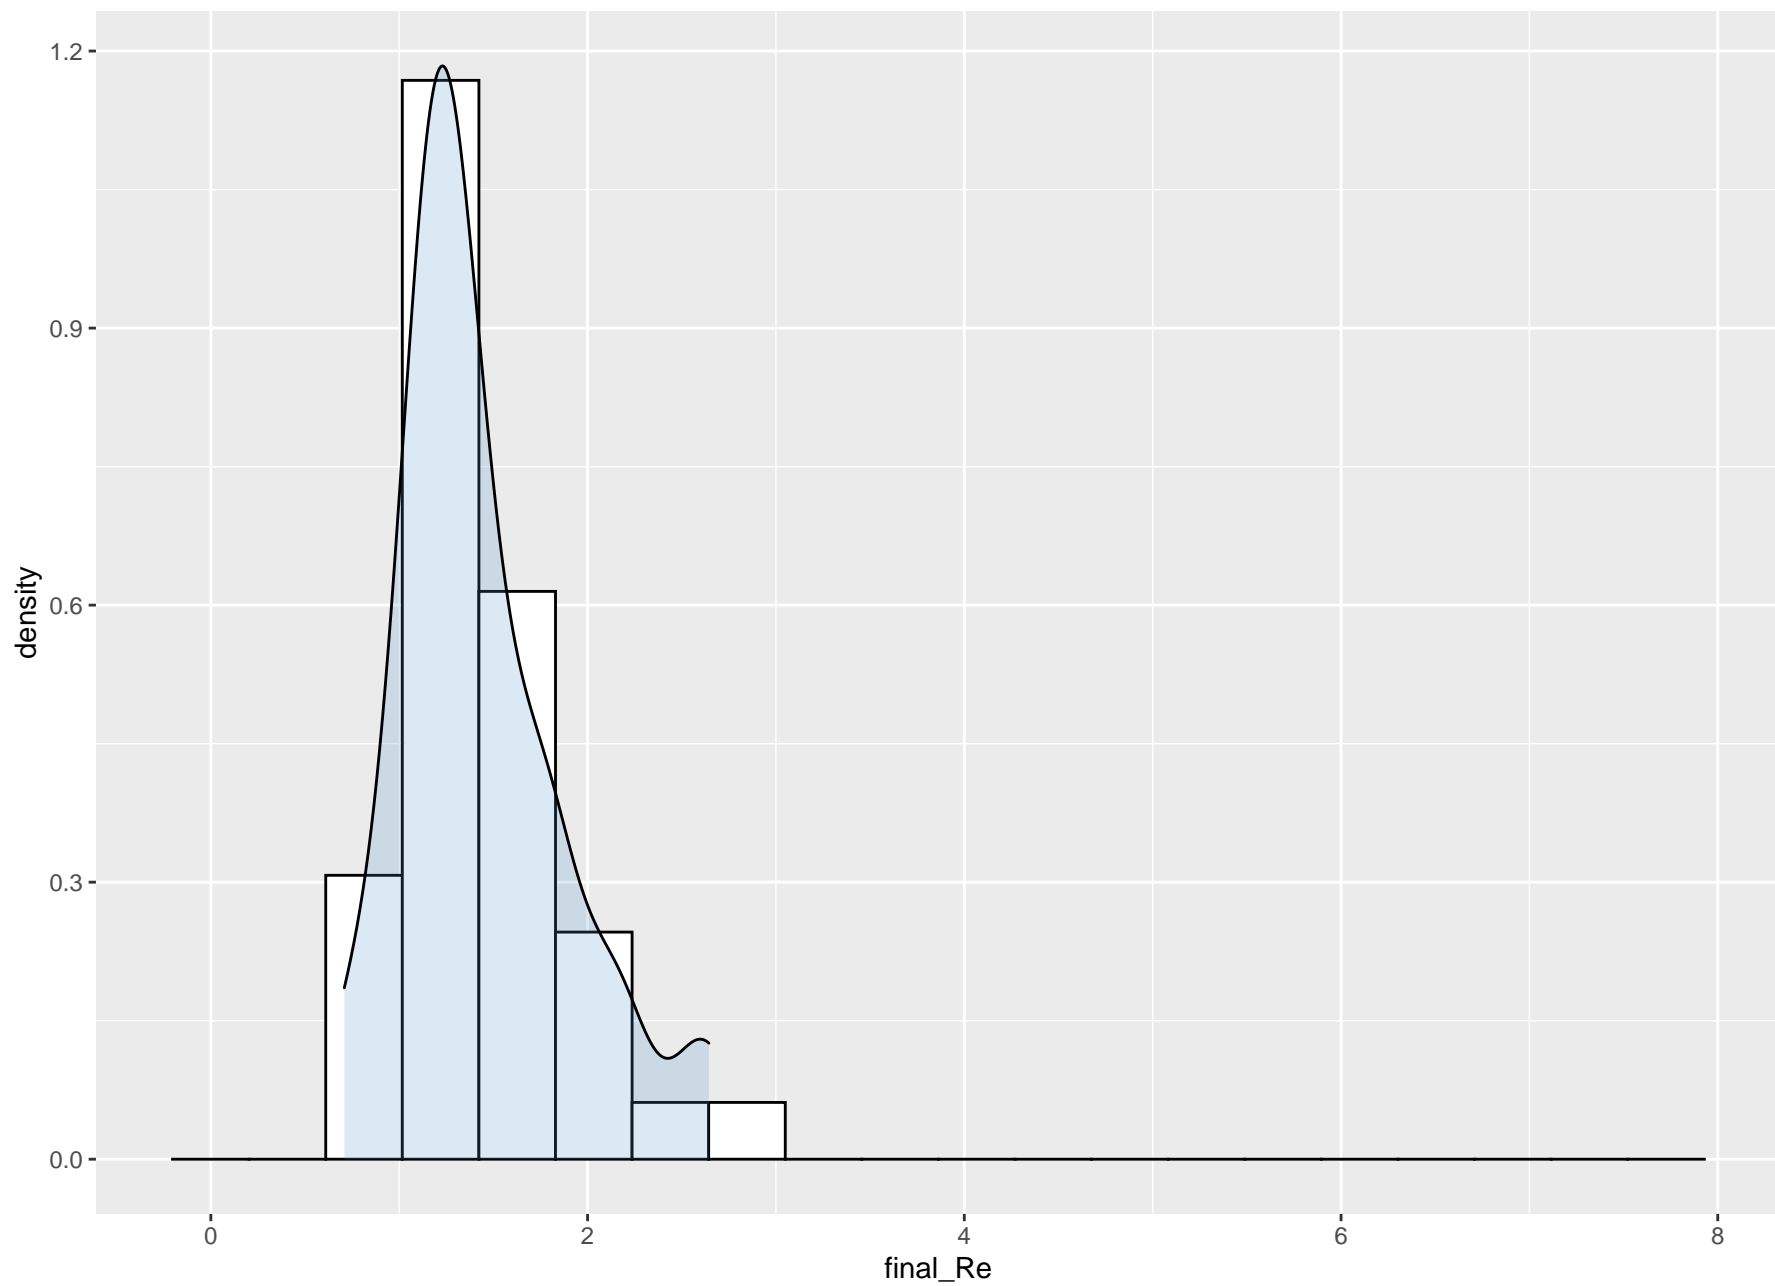

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

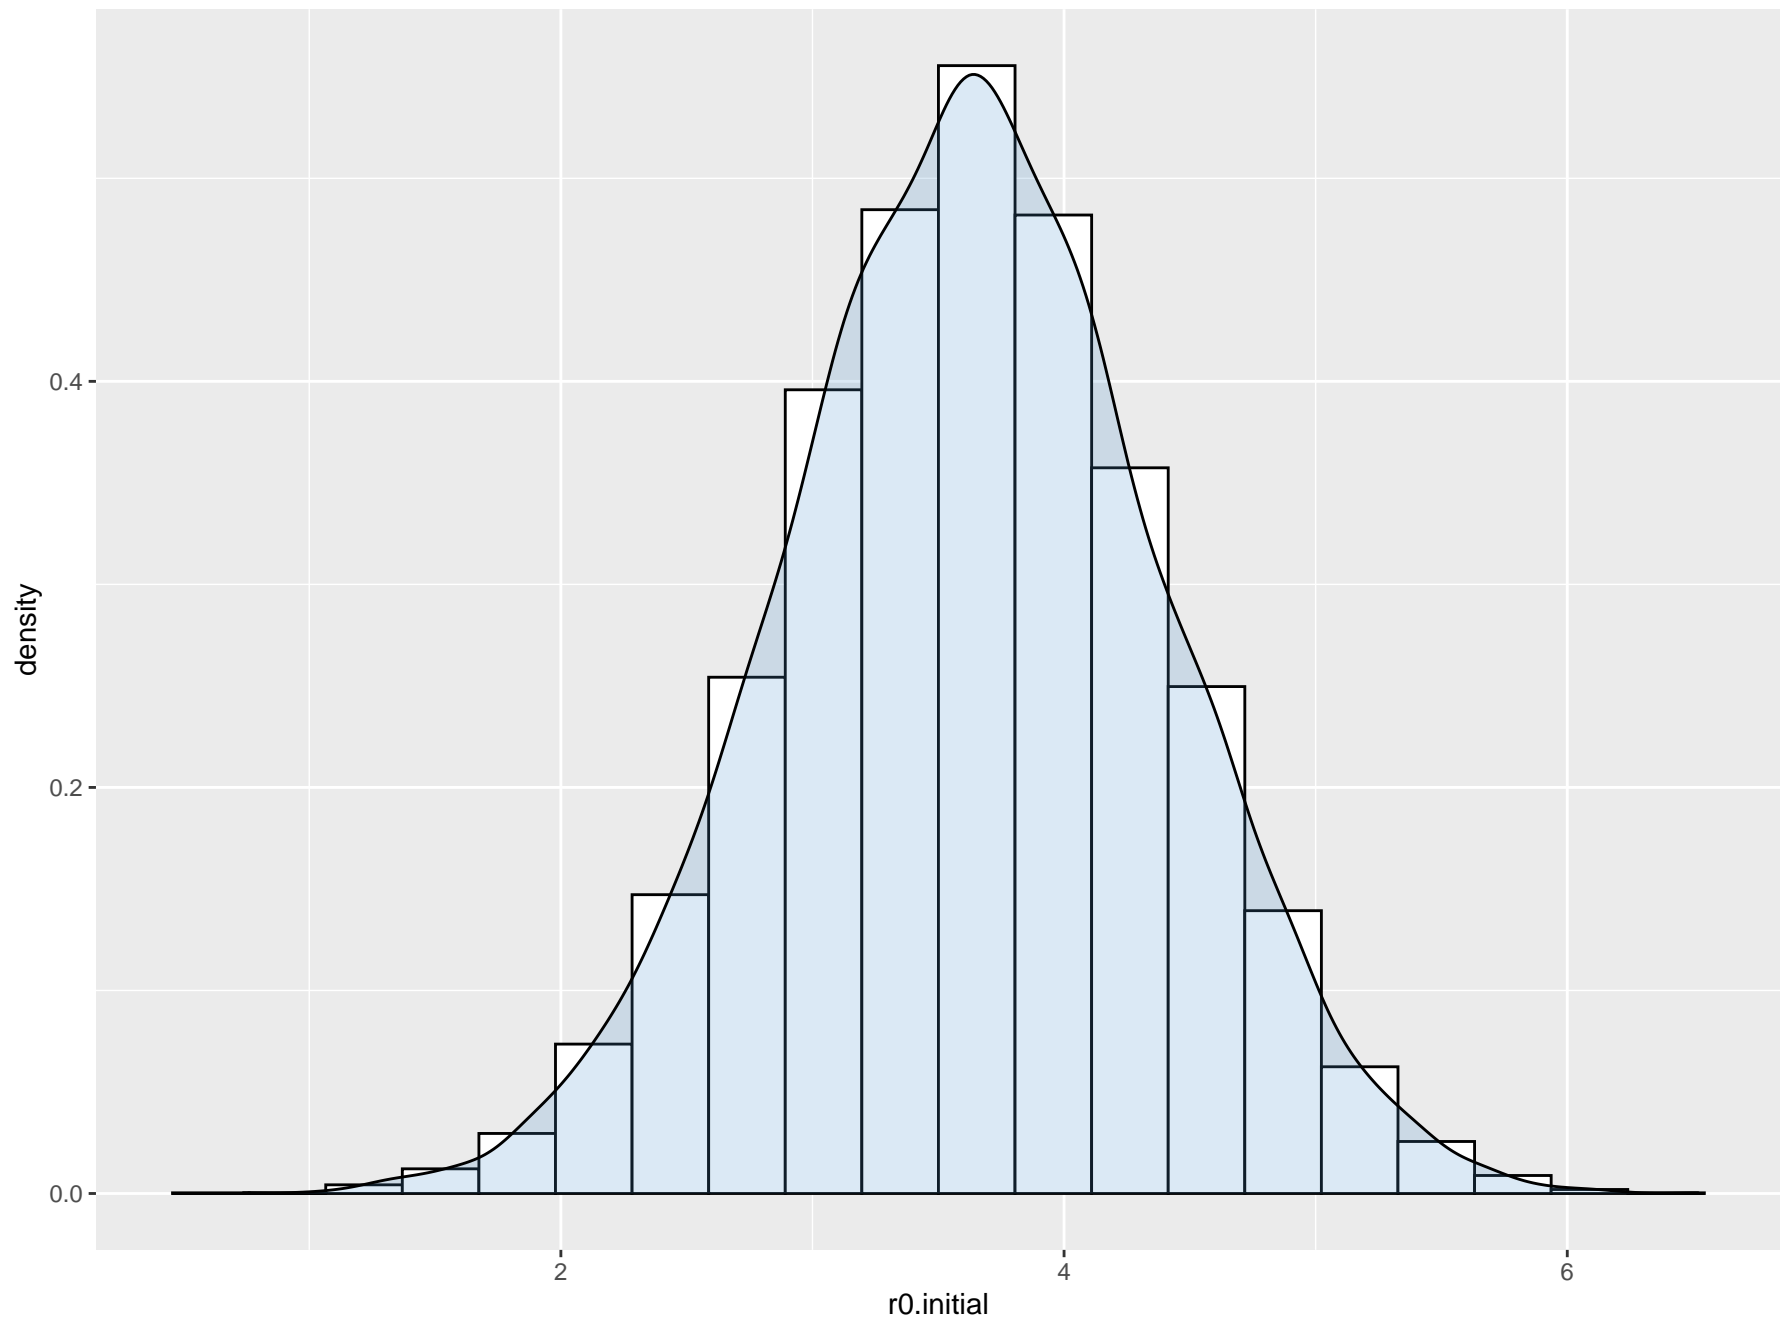

Prior Distribution, niter = 10000

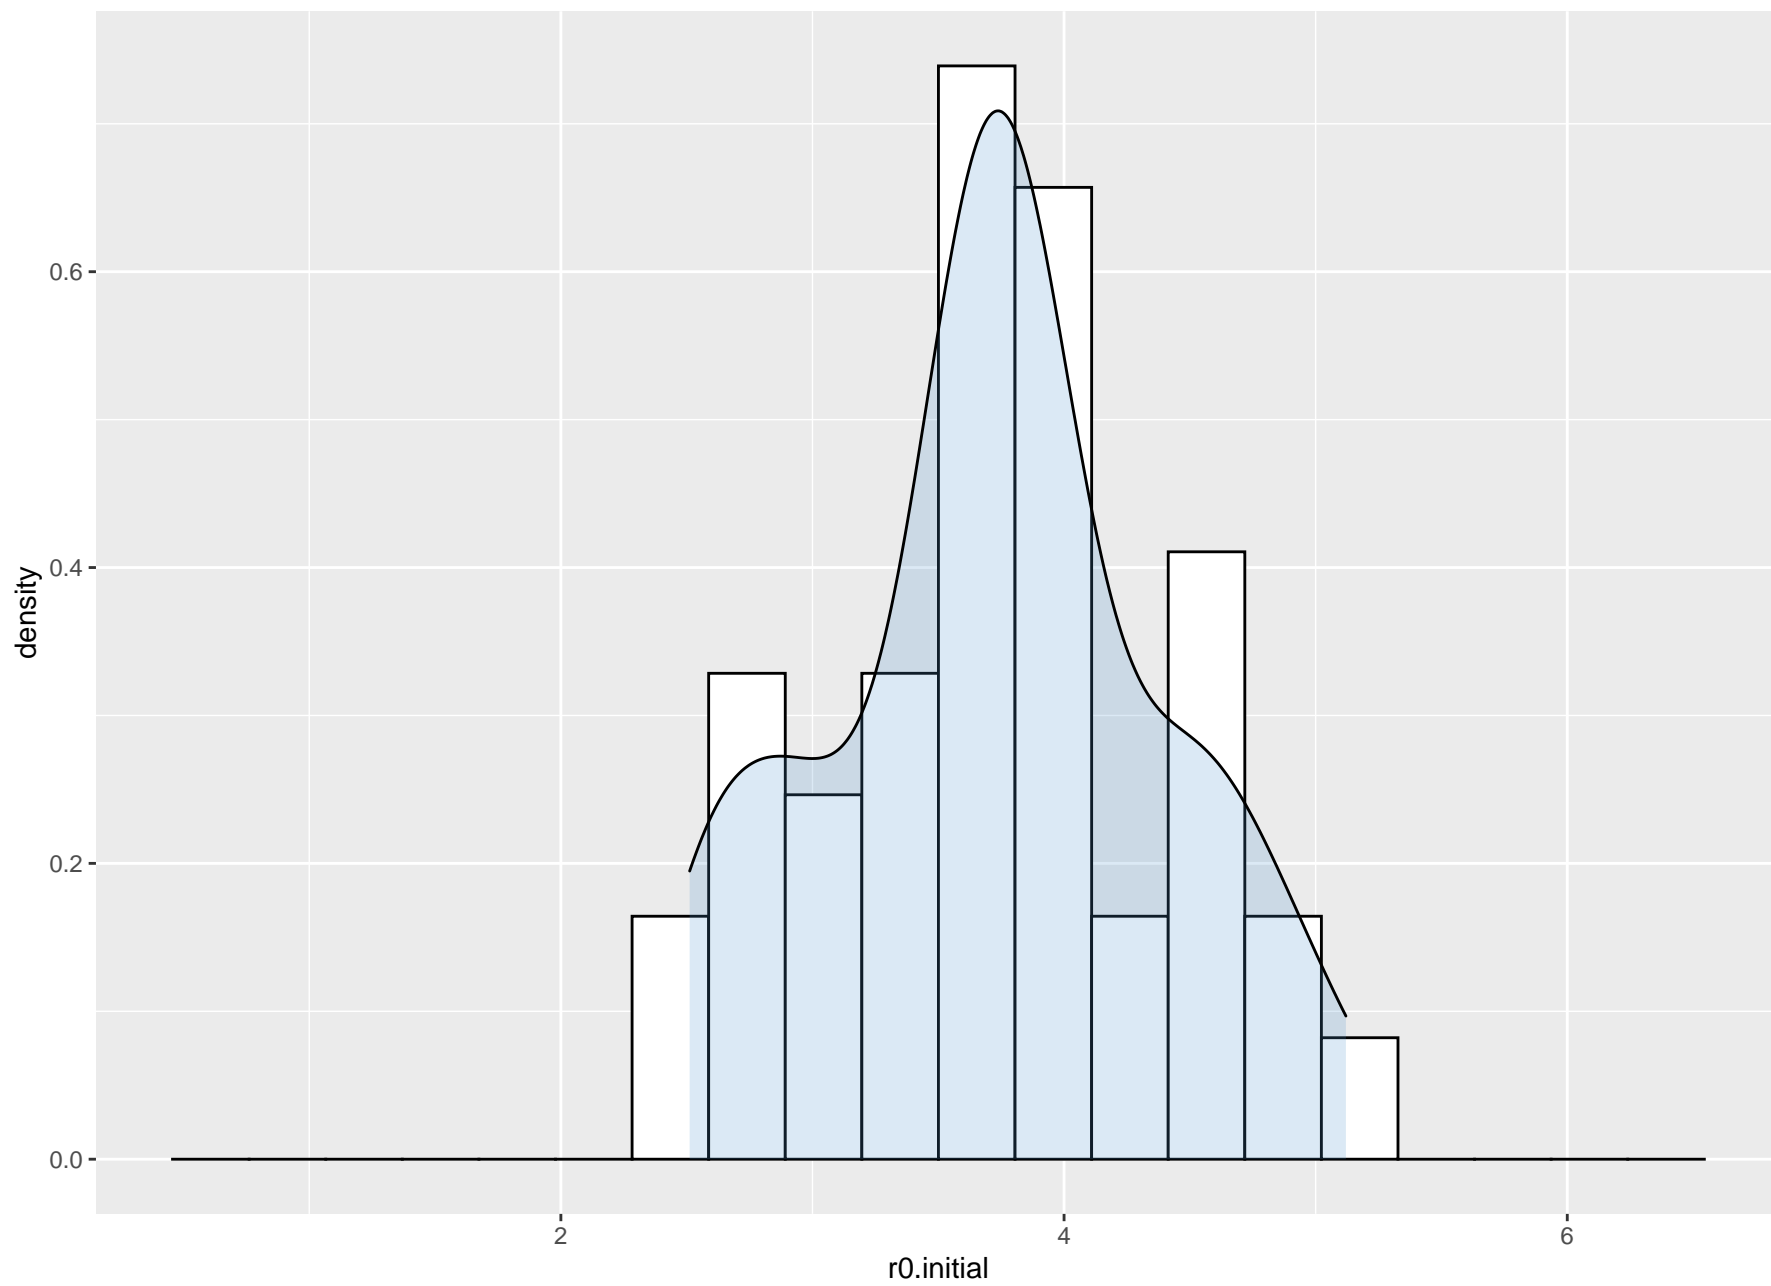

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

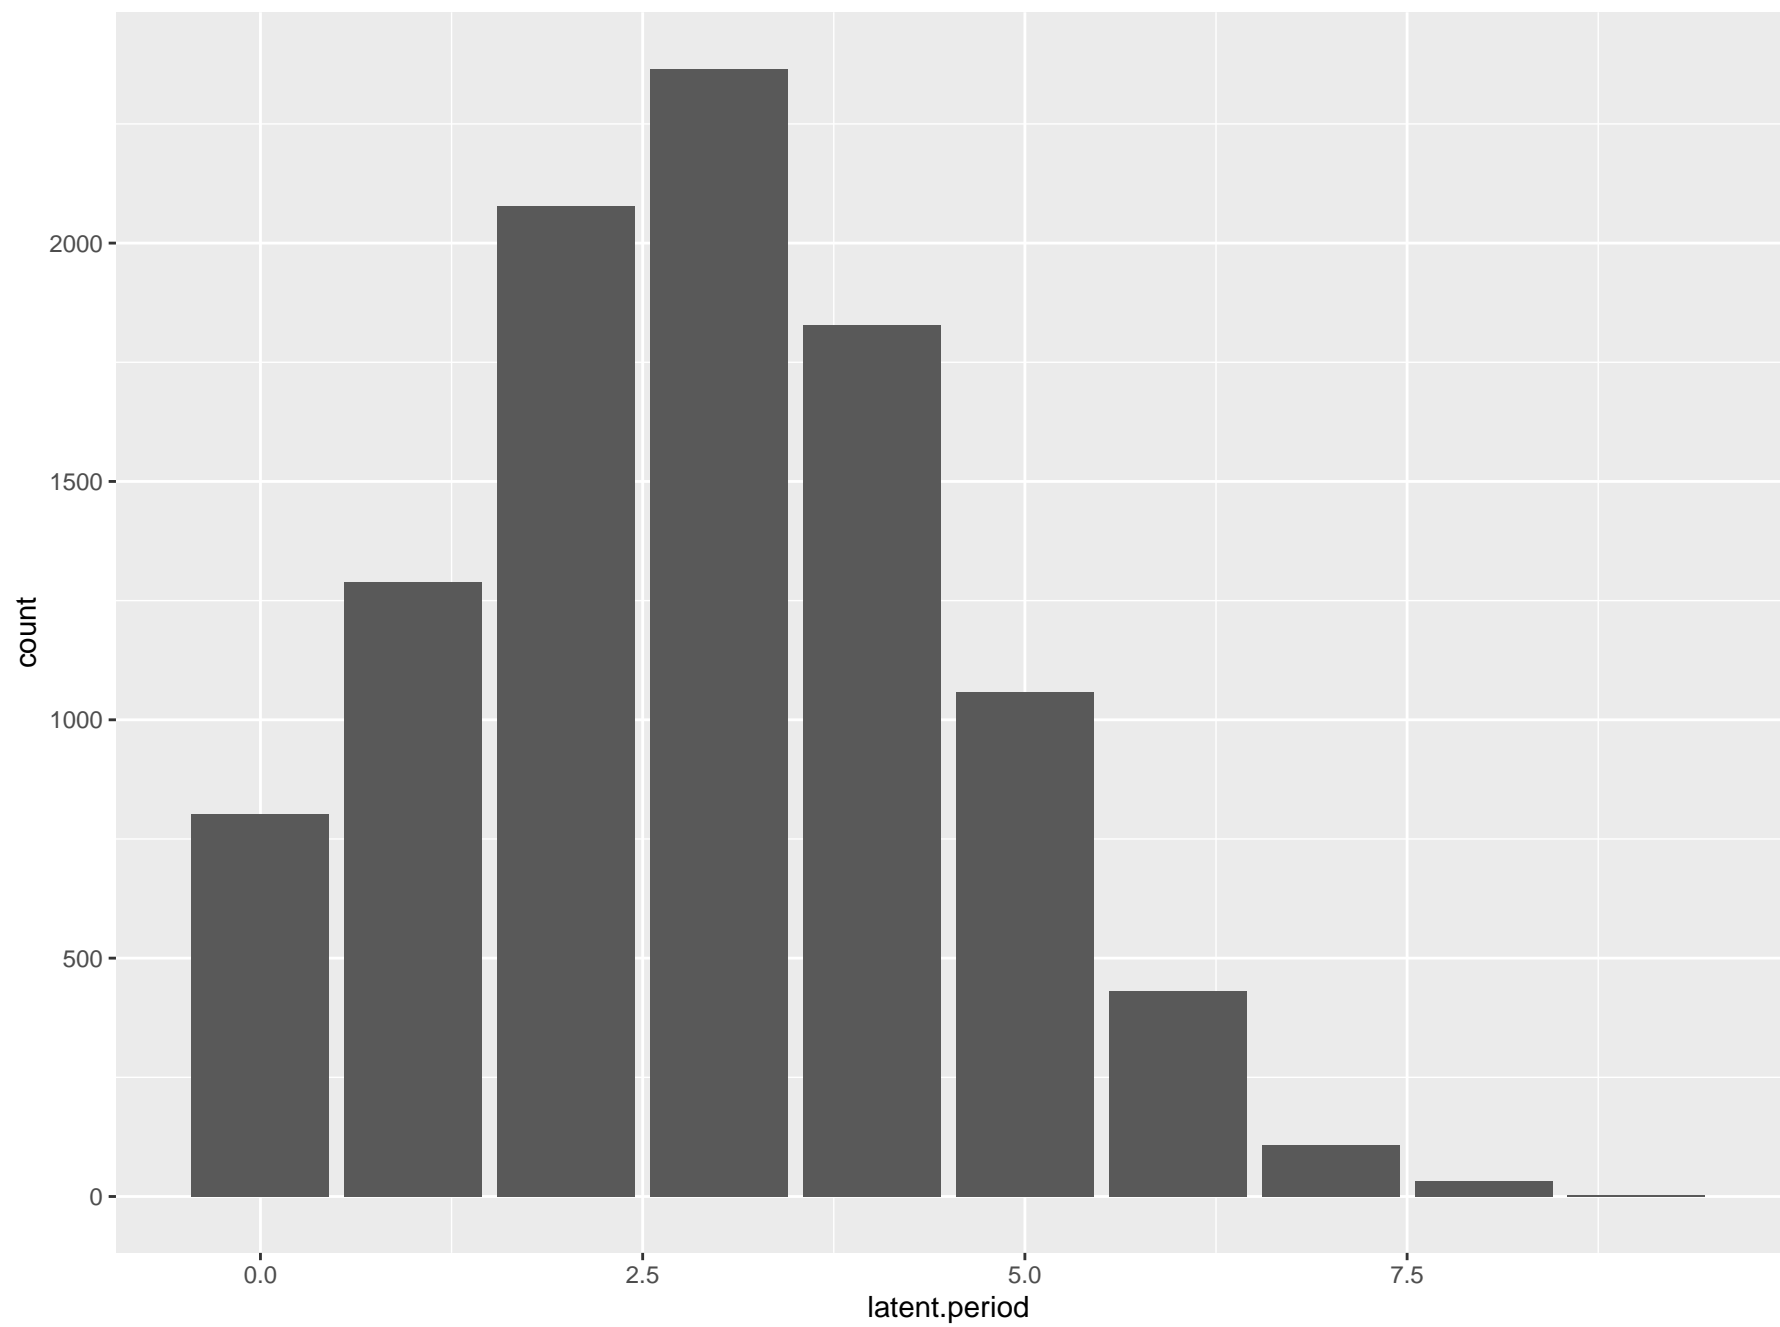

Prior Distribution, niter = 10000

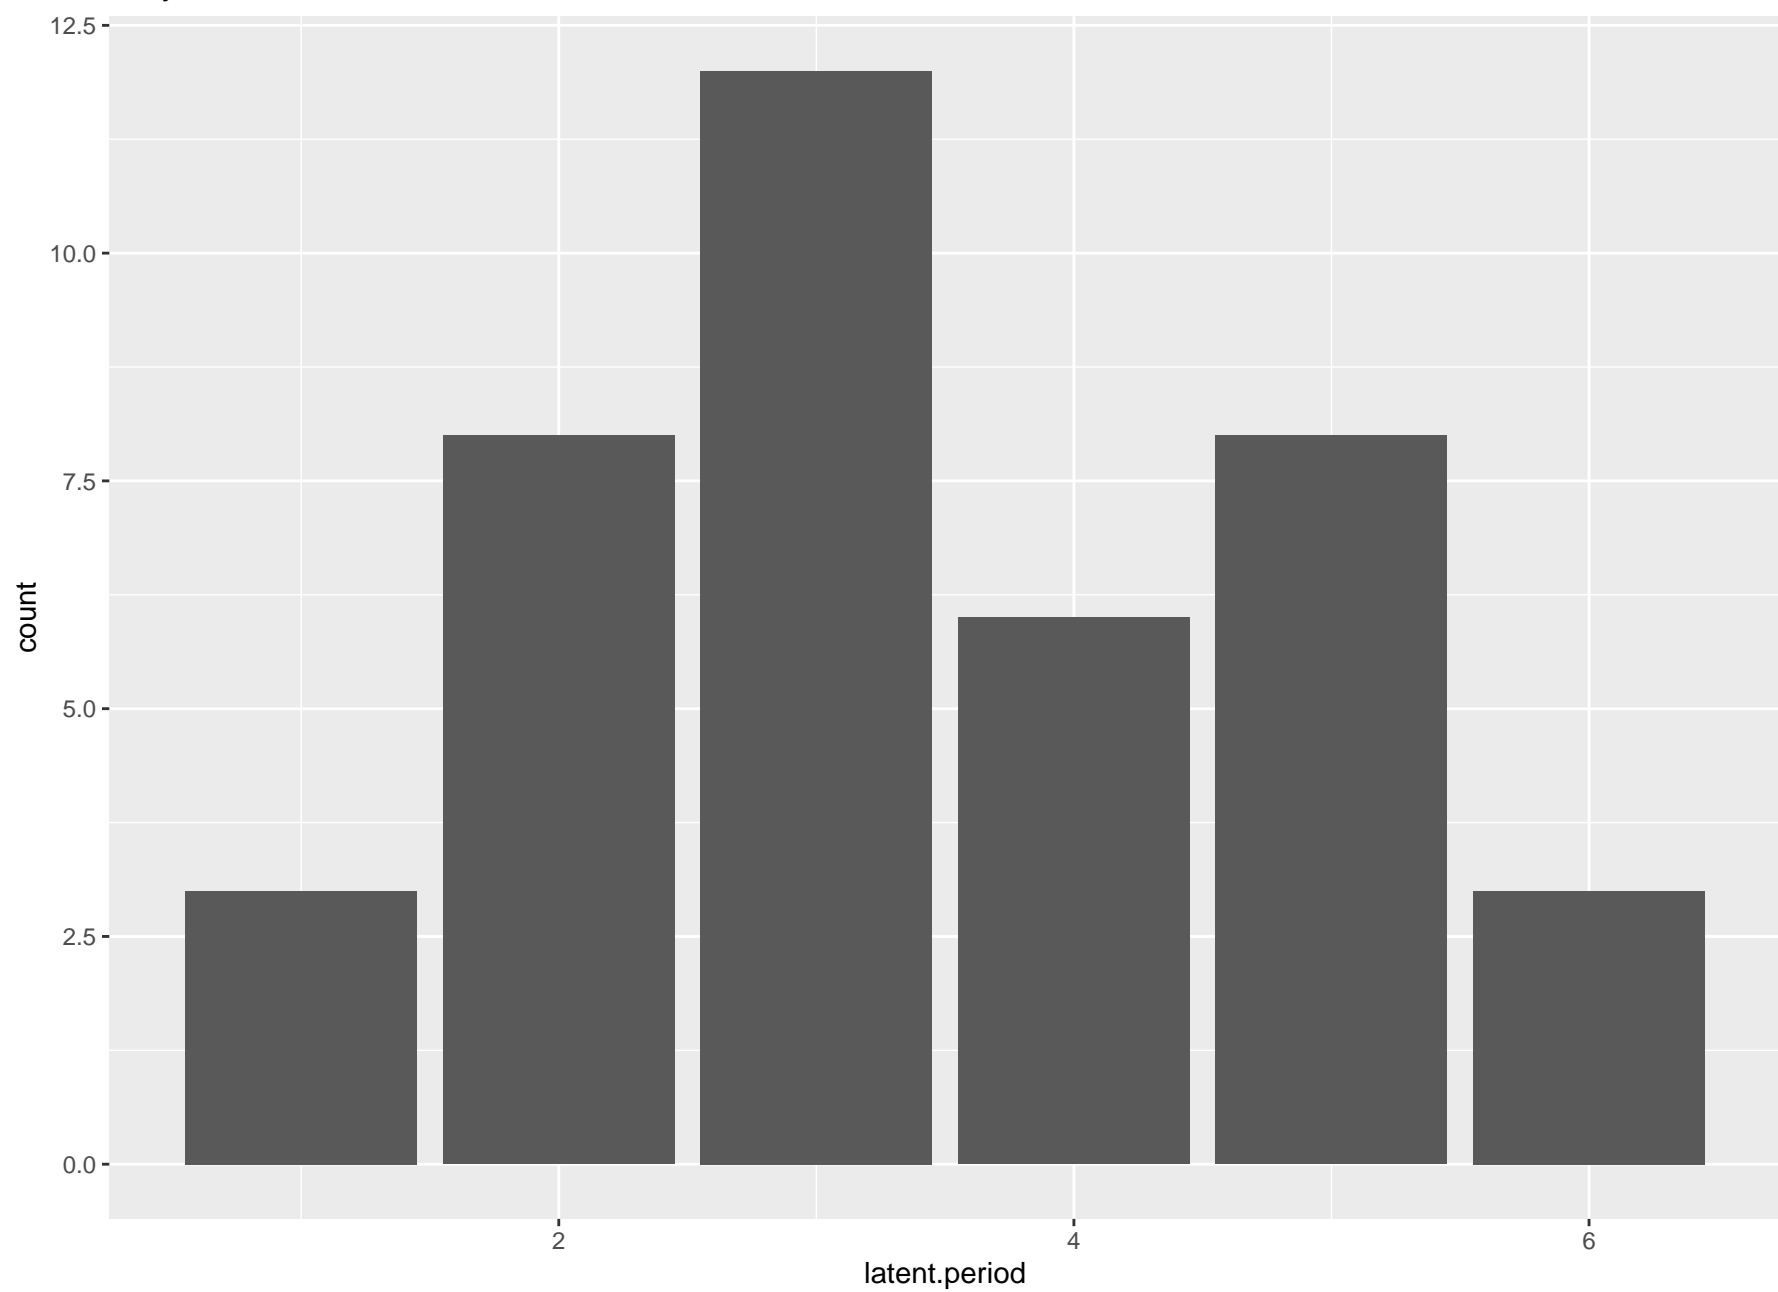

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

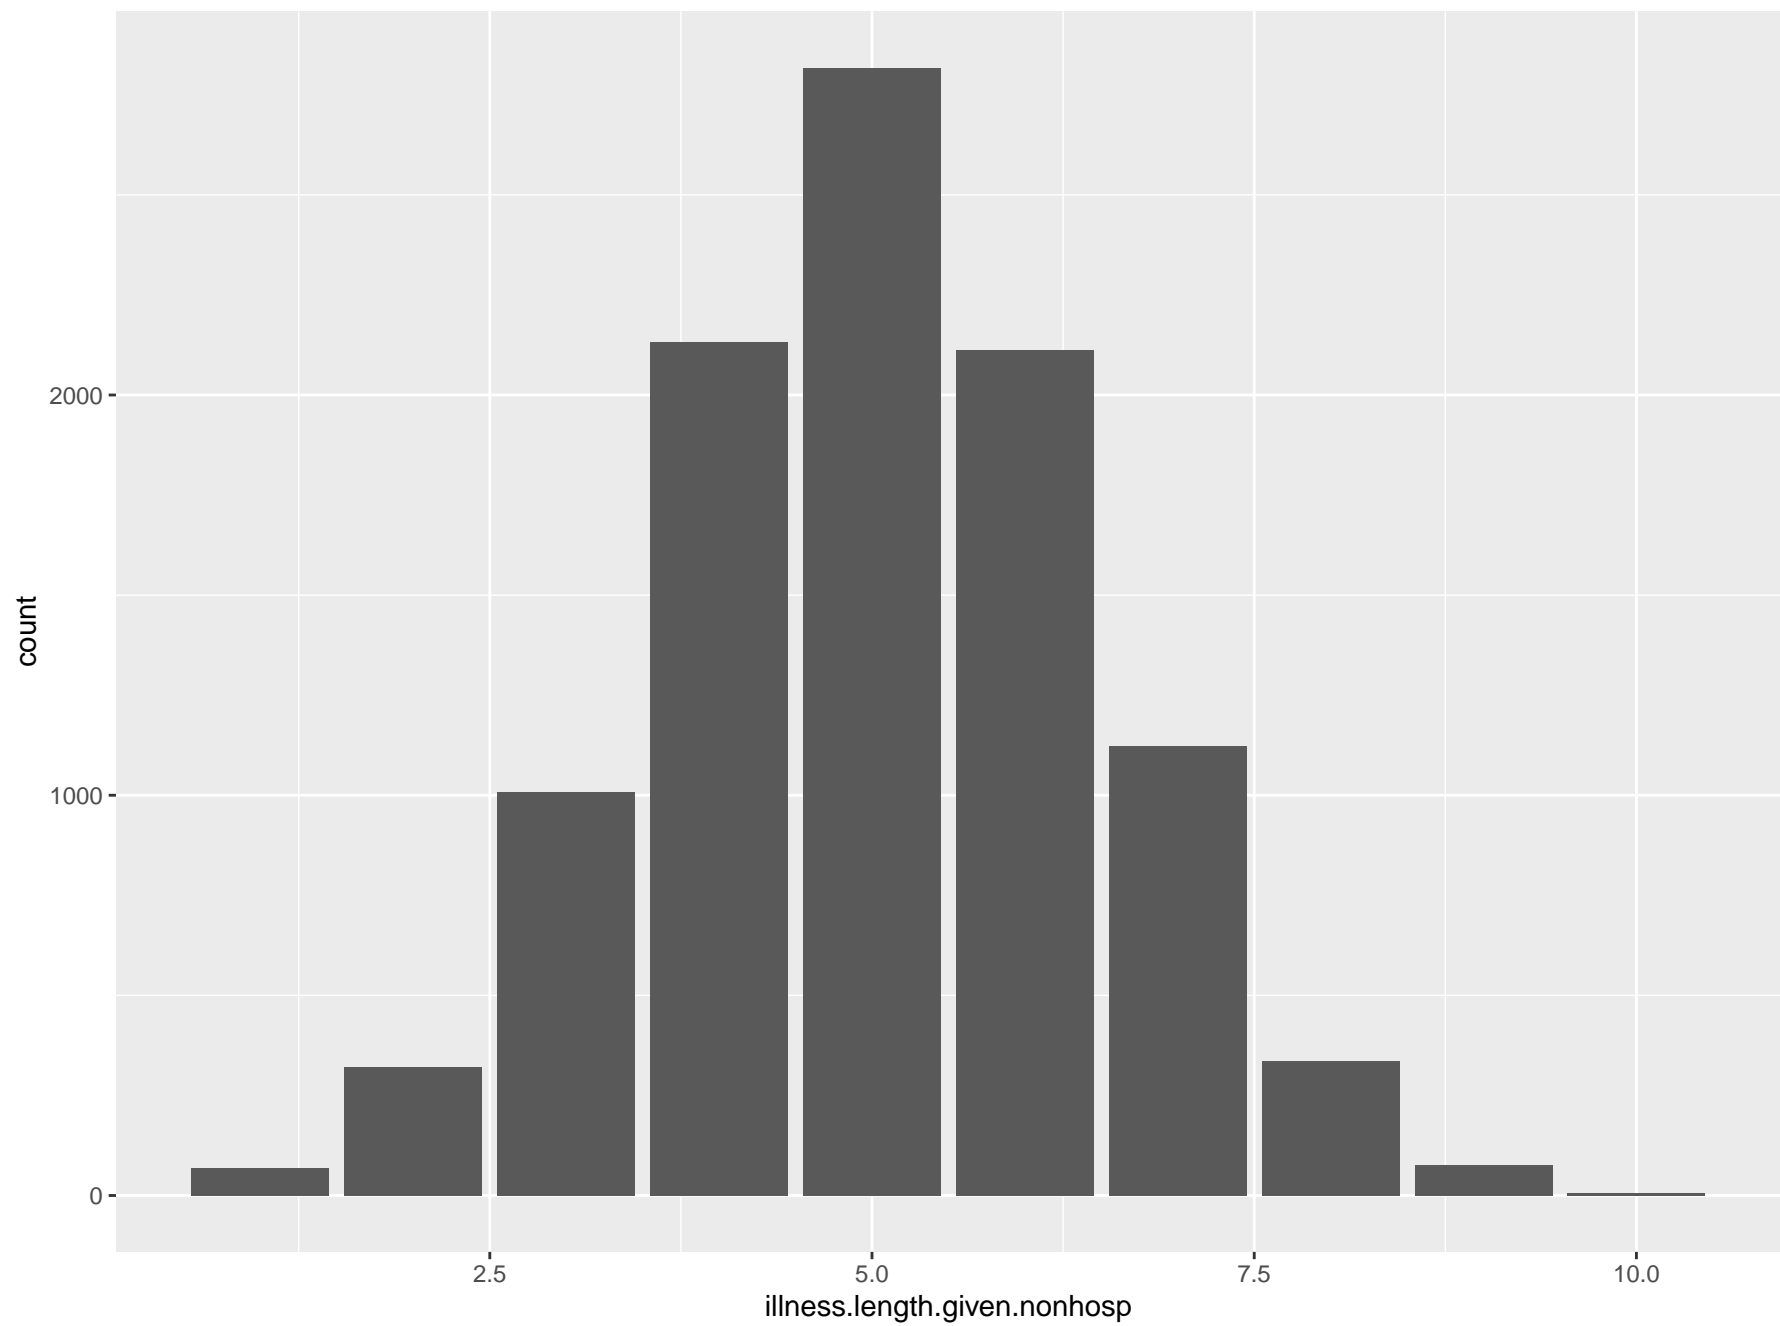

Prior Distribution, niter = 10000

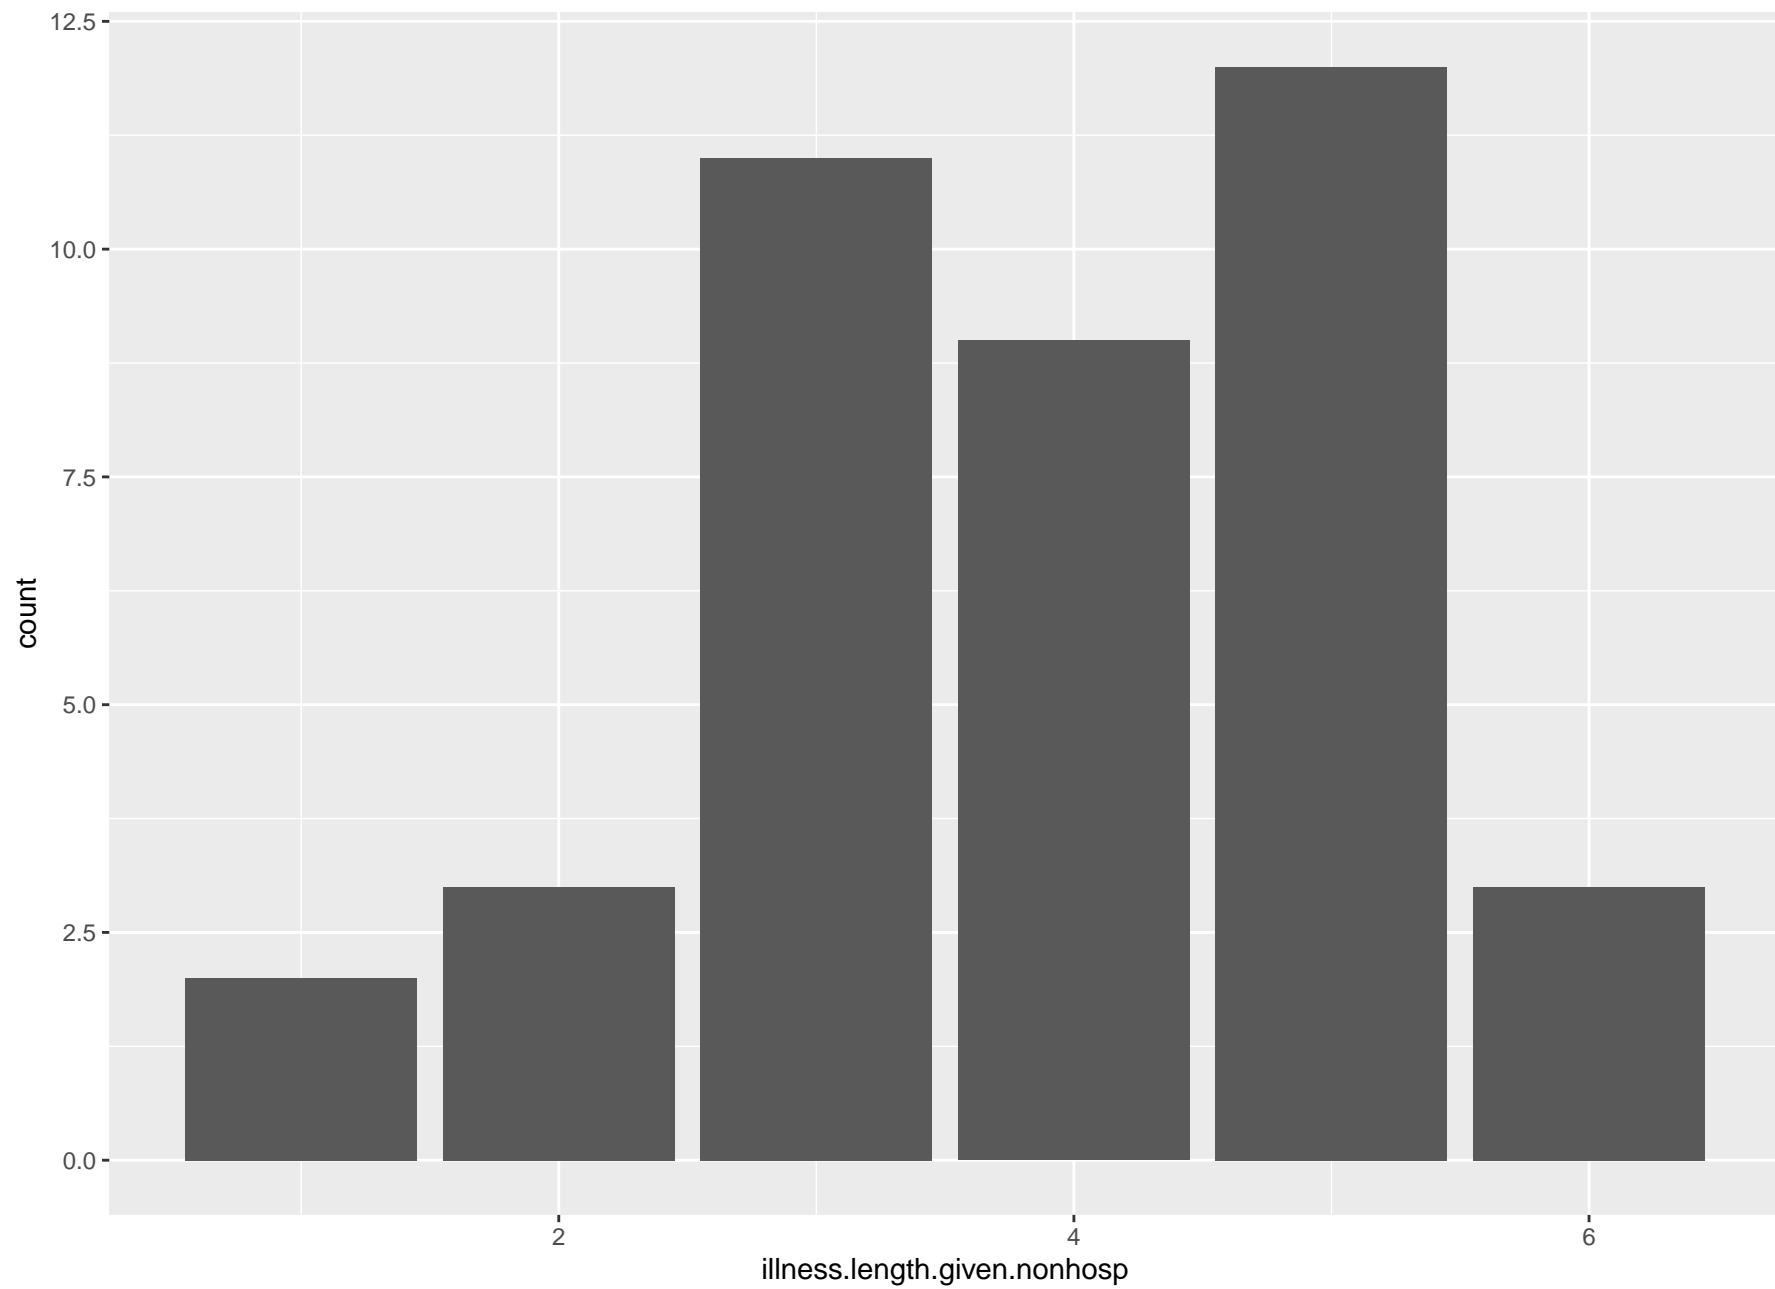

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

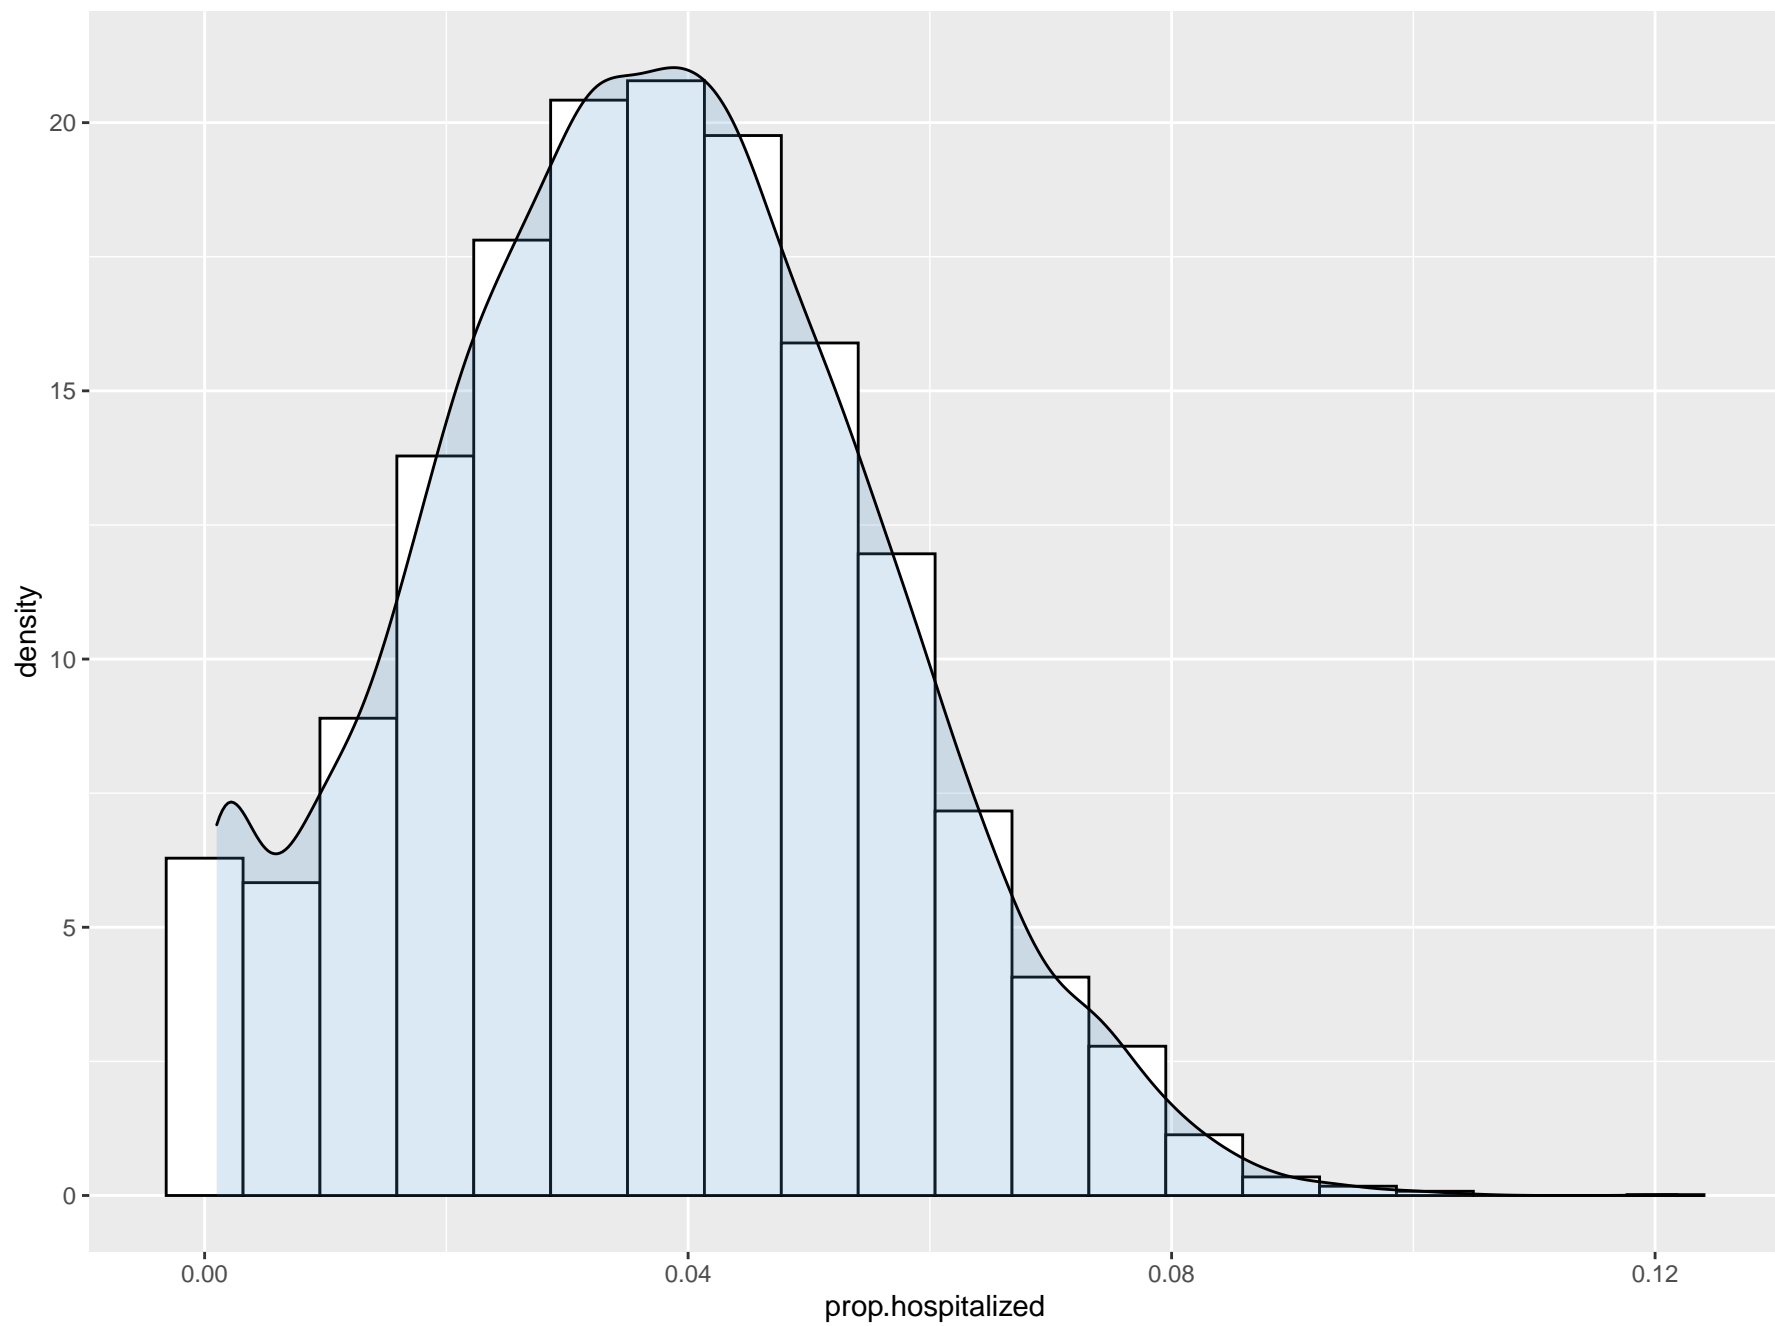

Prior Distribution, niter = 10000

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

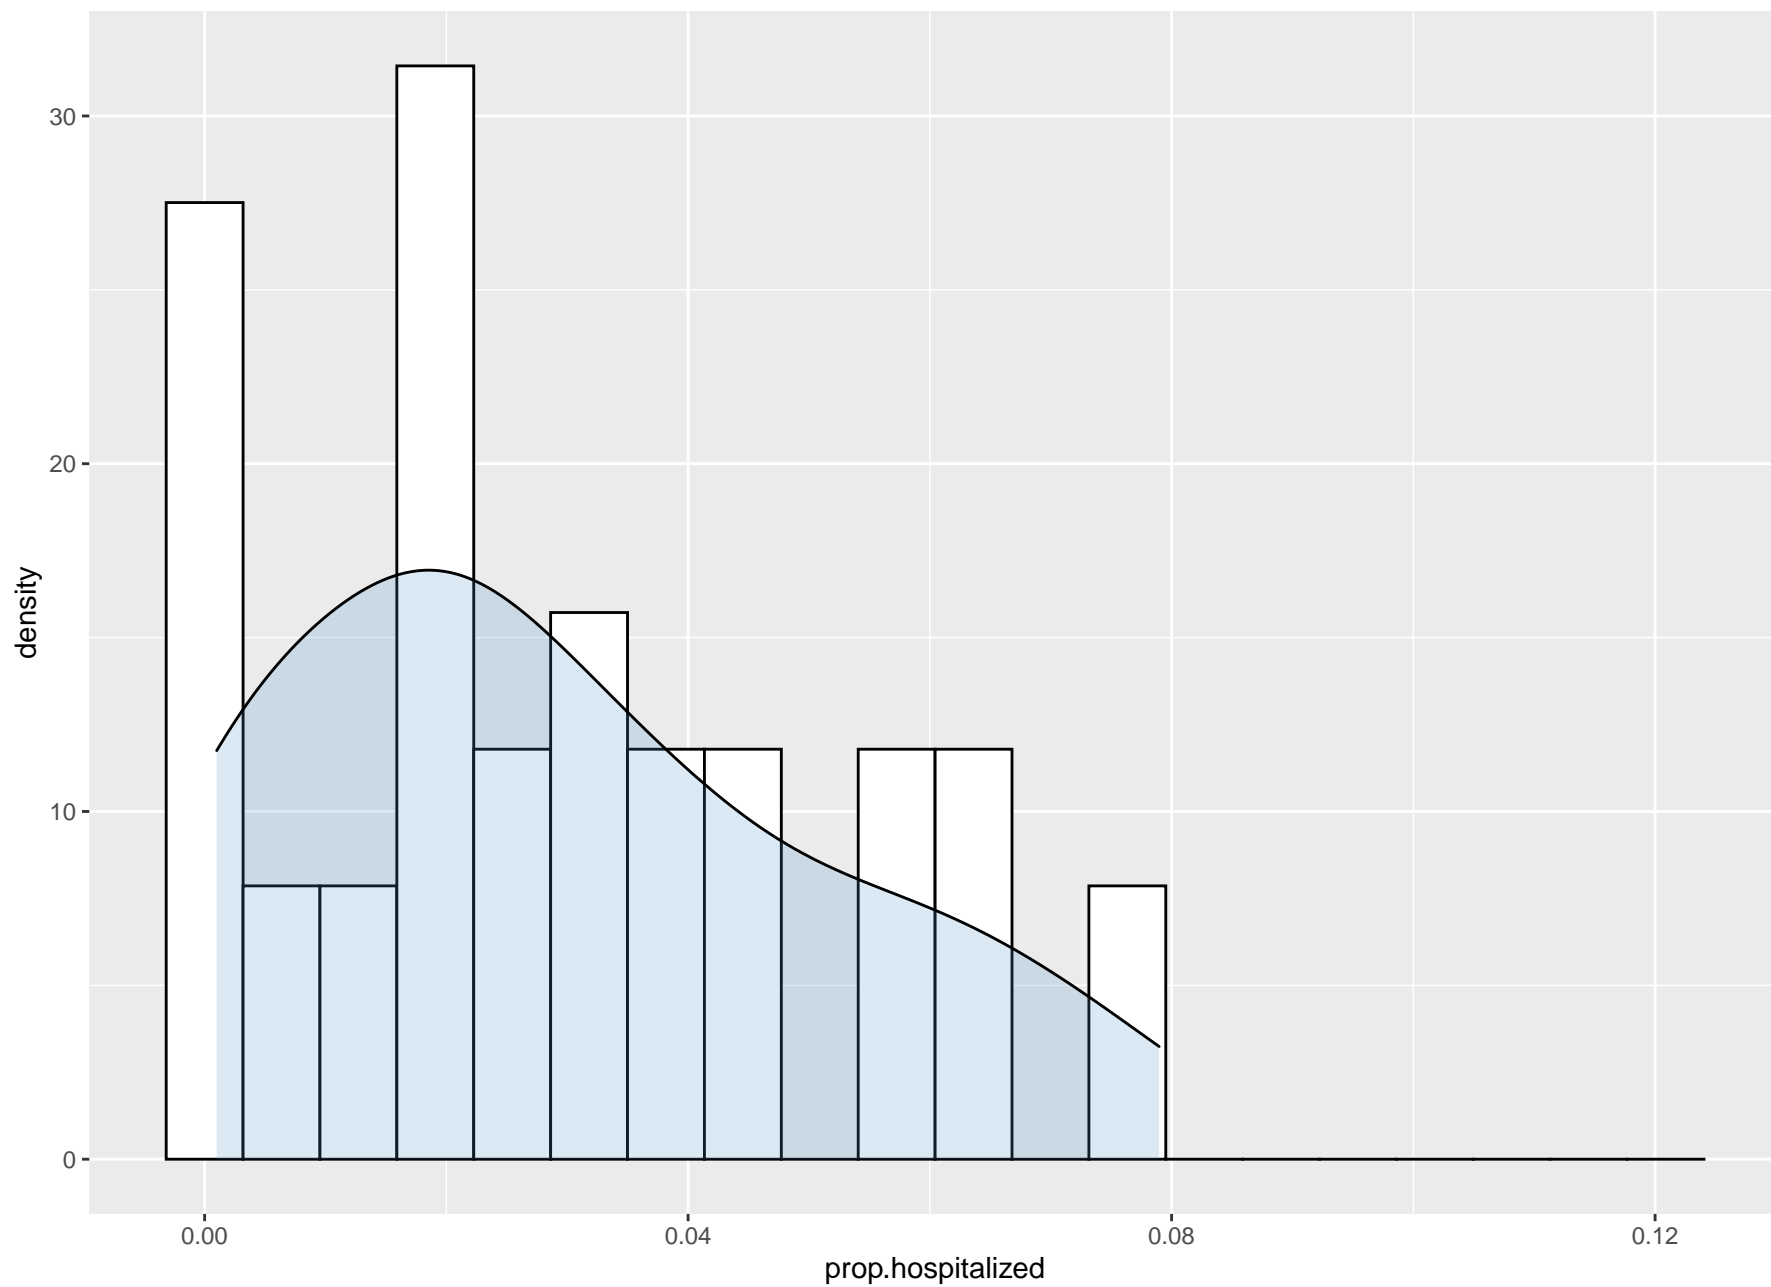

Prior Distribution, niter = 10000

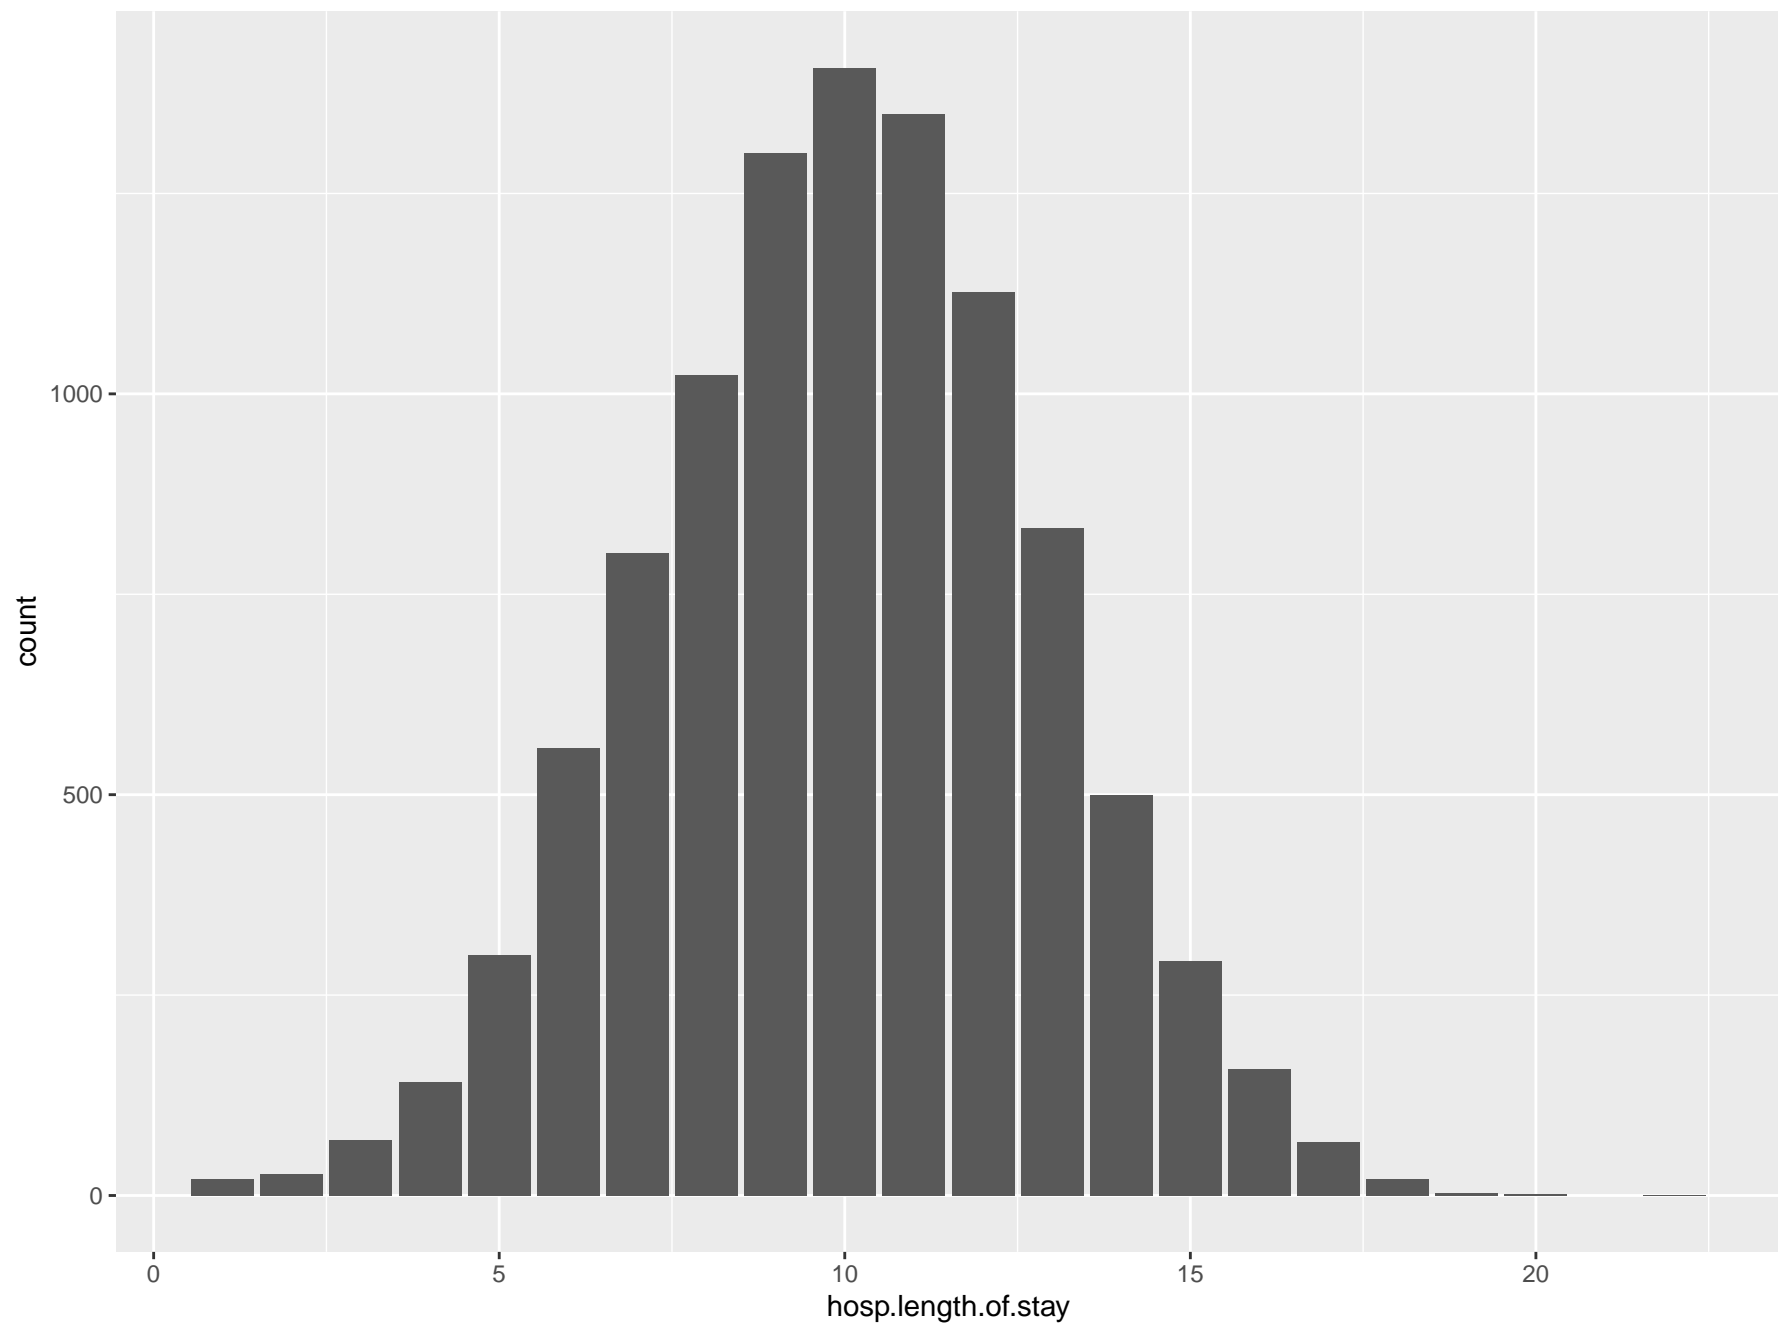

Posterior Distribution, niter = 40

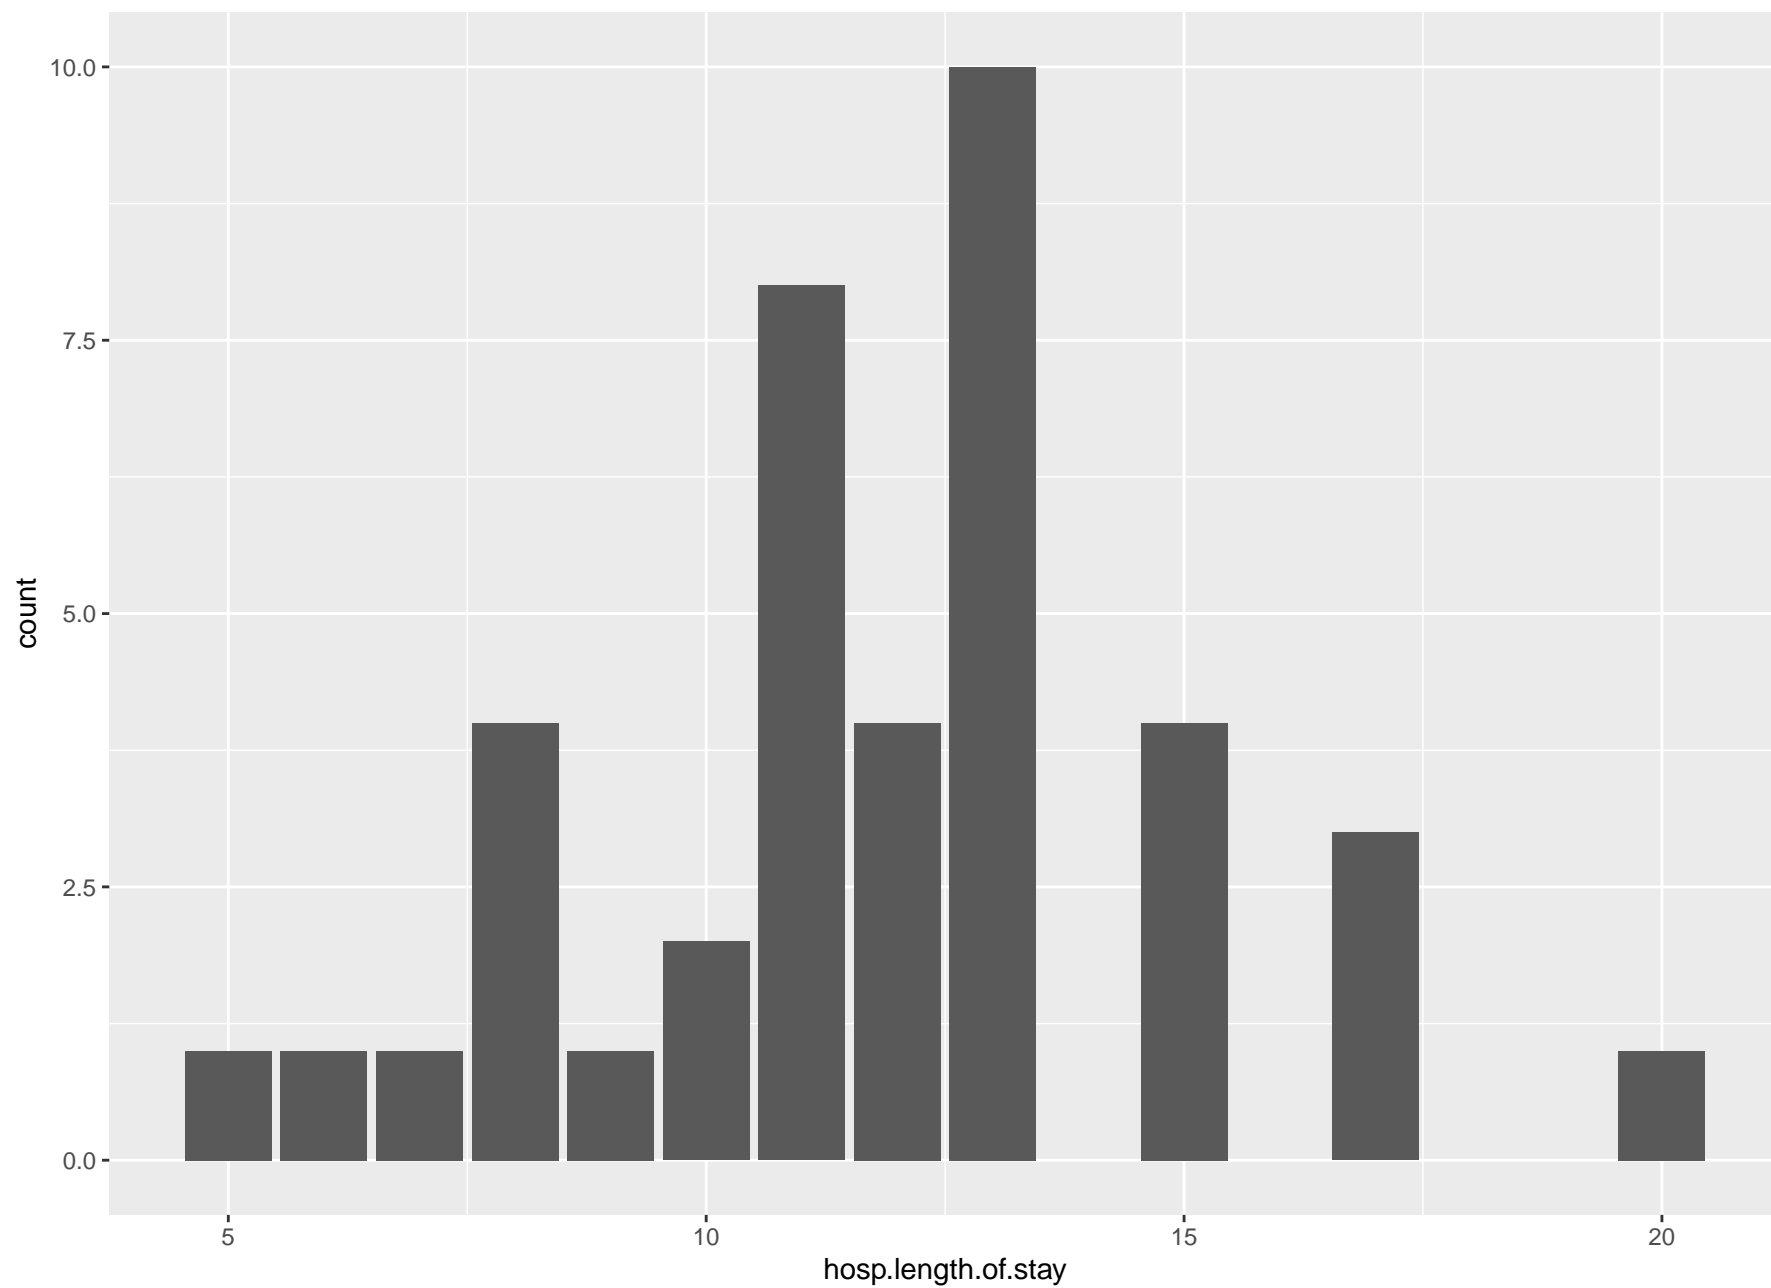

Very low number of iterations, do not use for inference

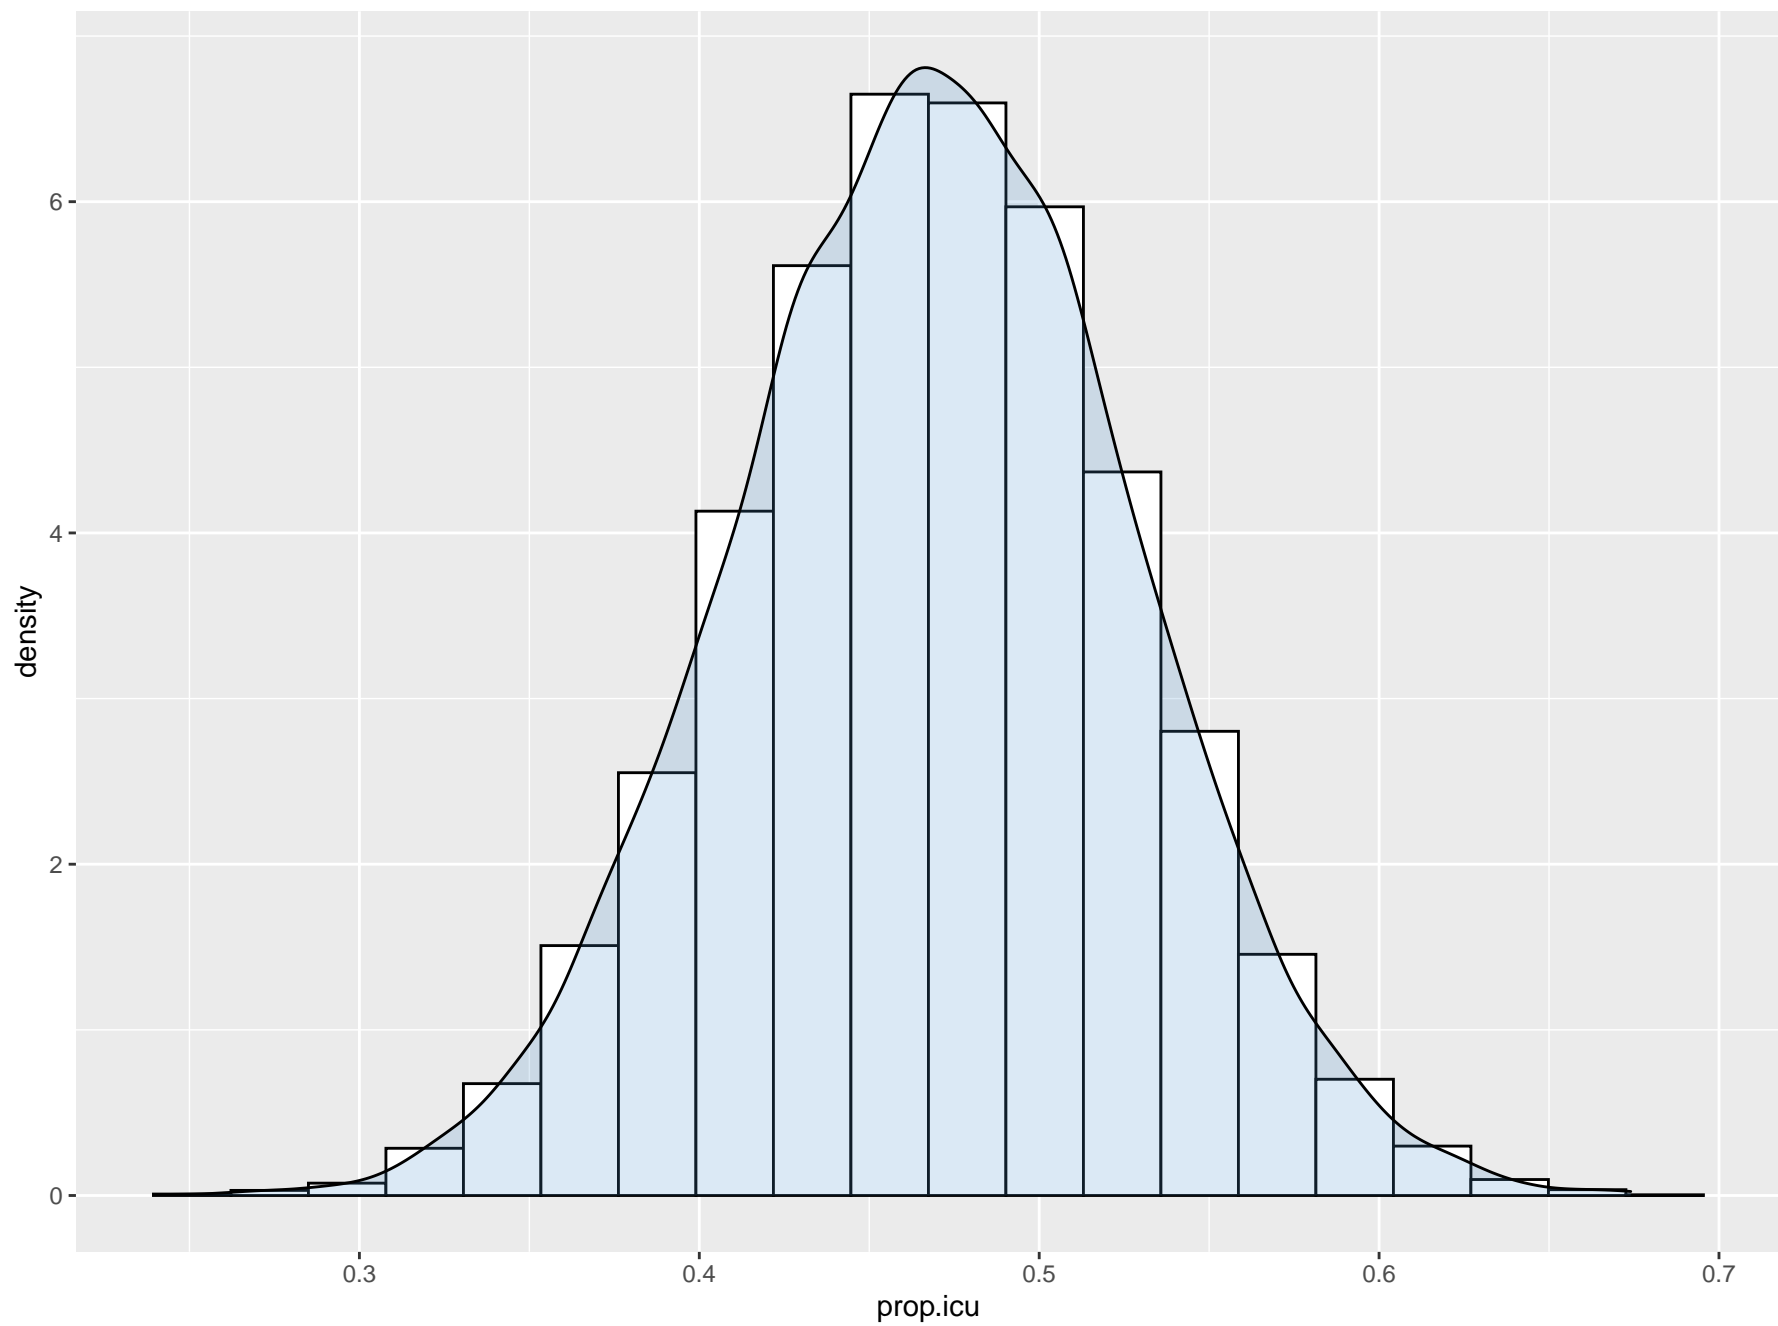

Prior Distribution, niter = 10000

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

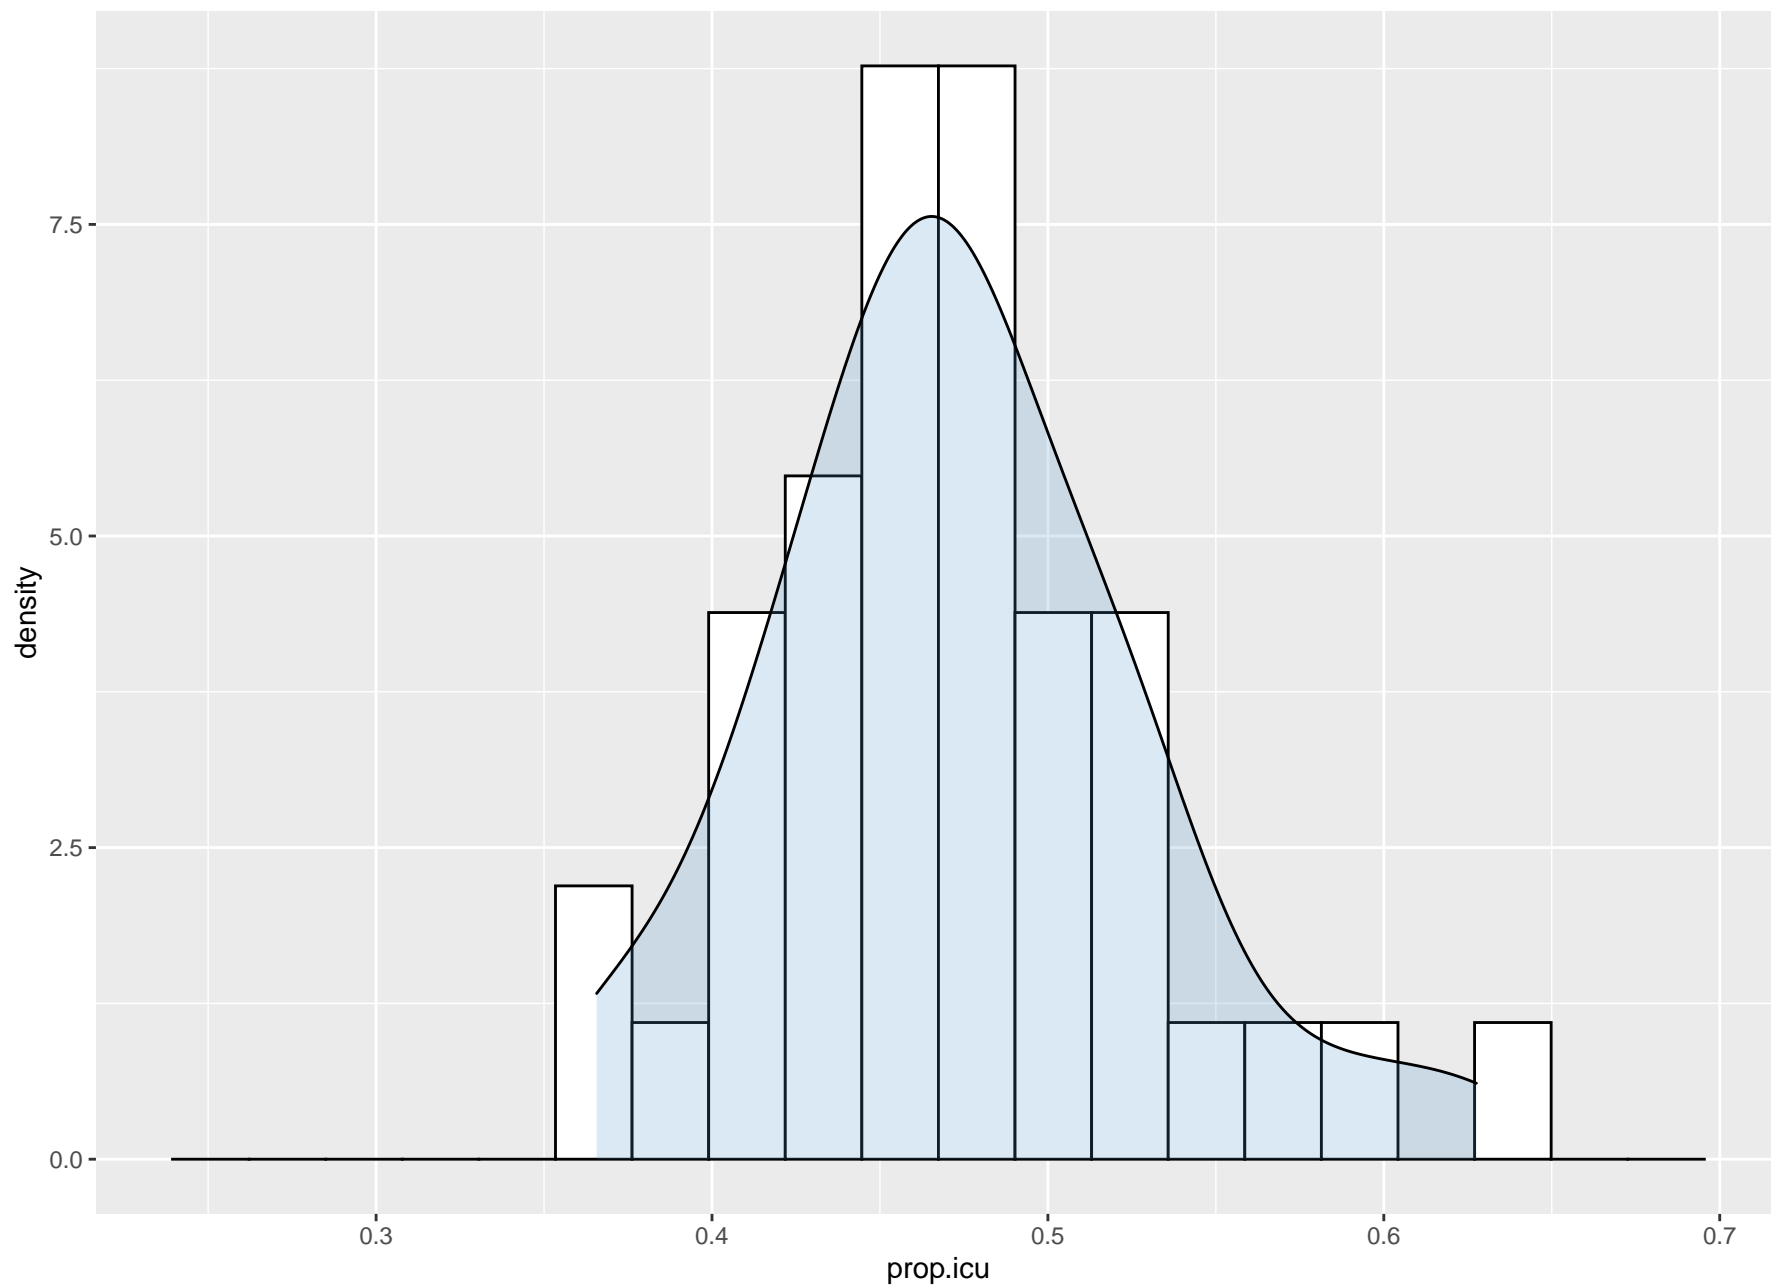

Prior Distribution, niter = 10000

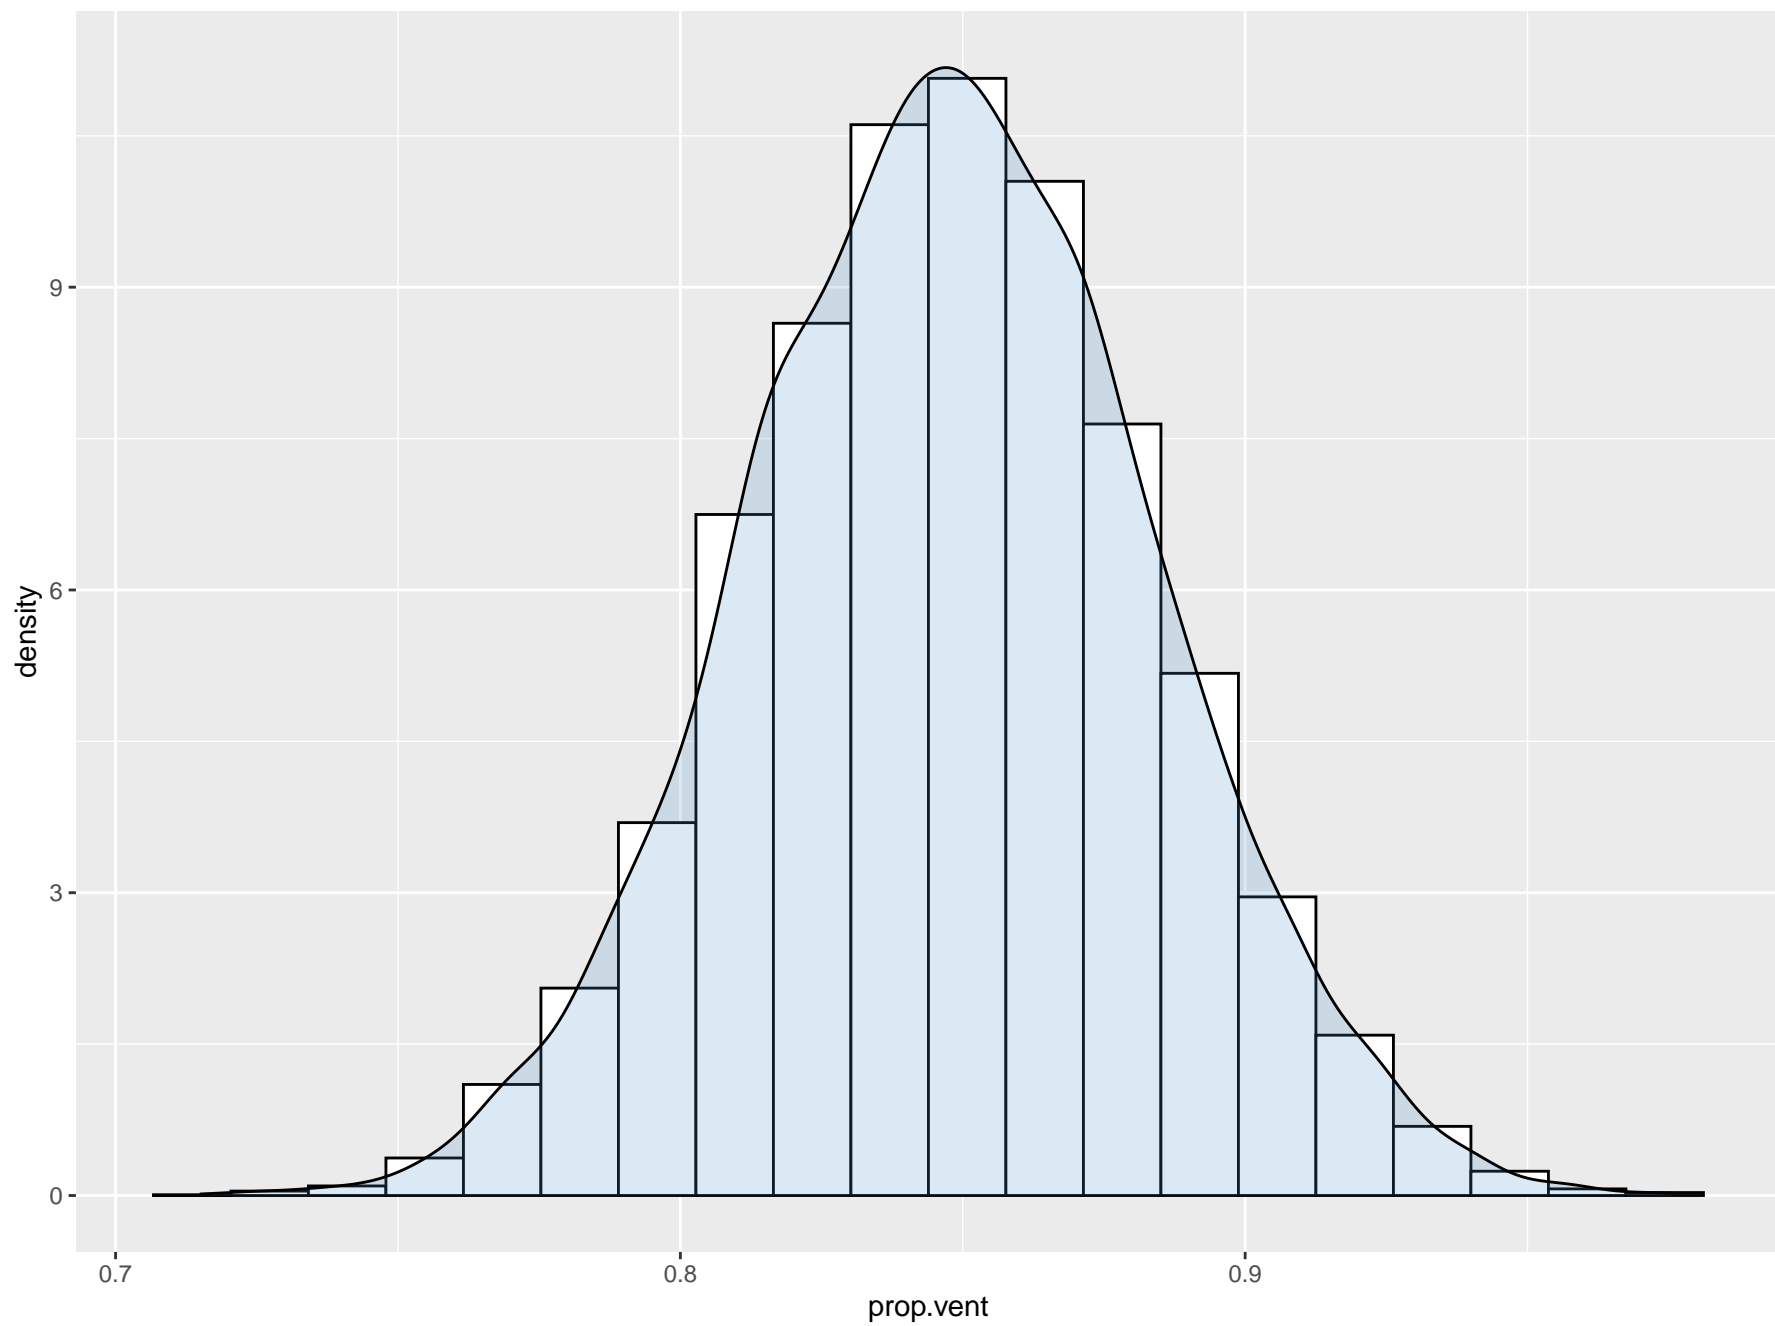

Posterior Distribution, niter = 40

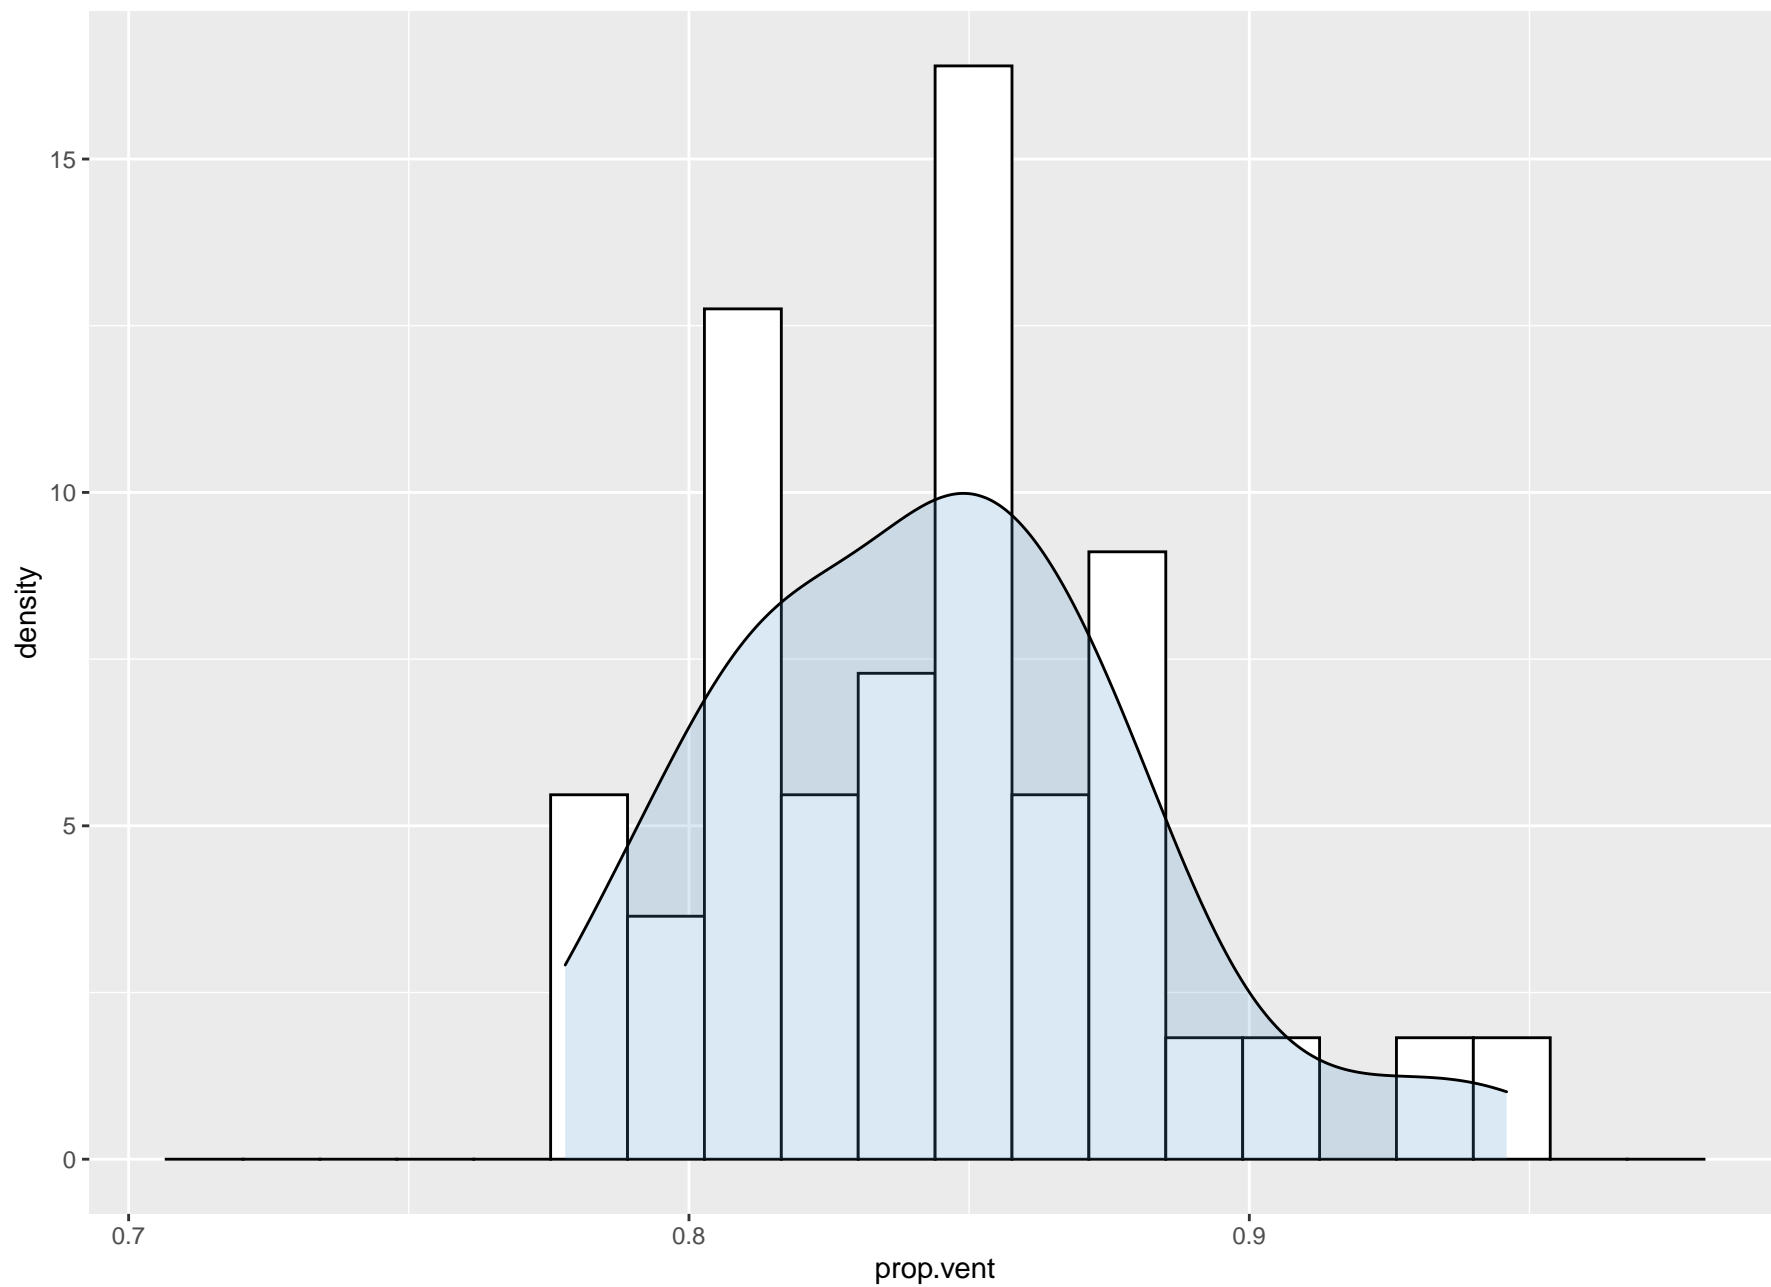

Very low number of iterations, do not use for inference

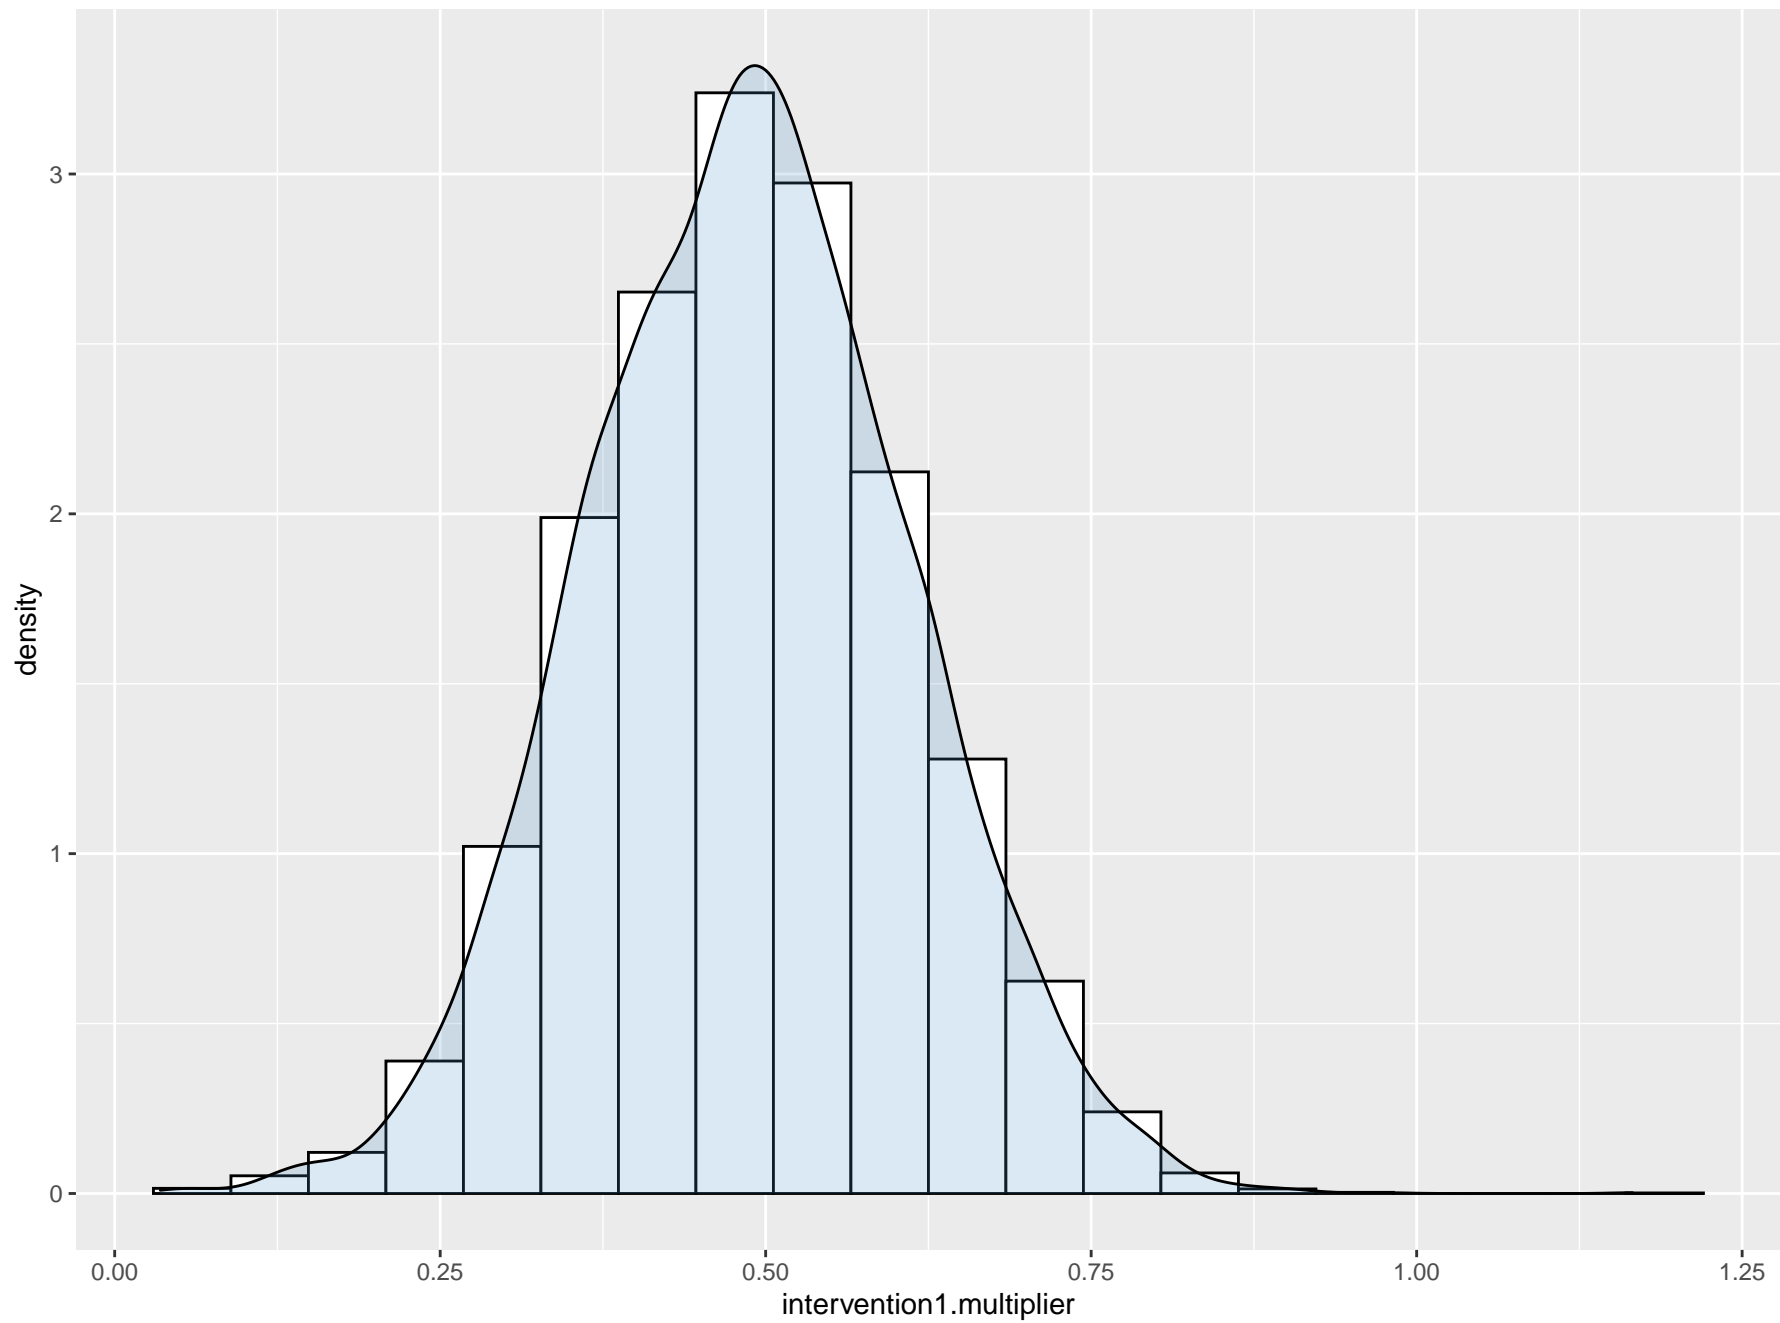

Prior Distribution, niter = 10000

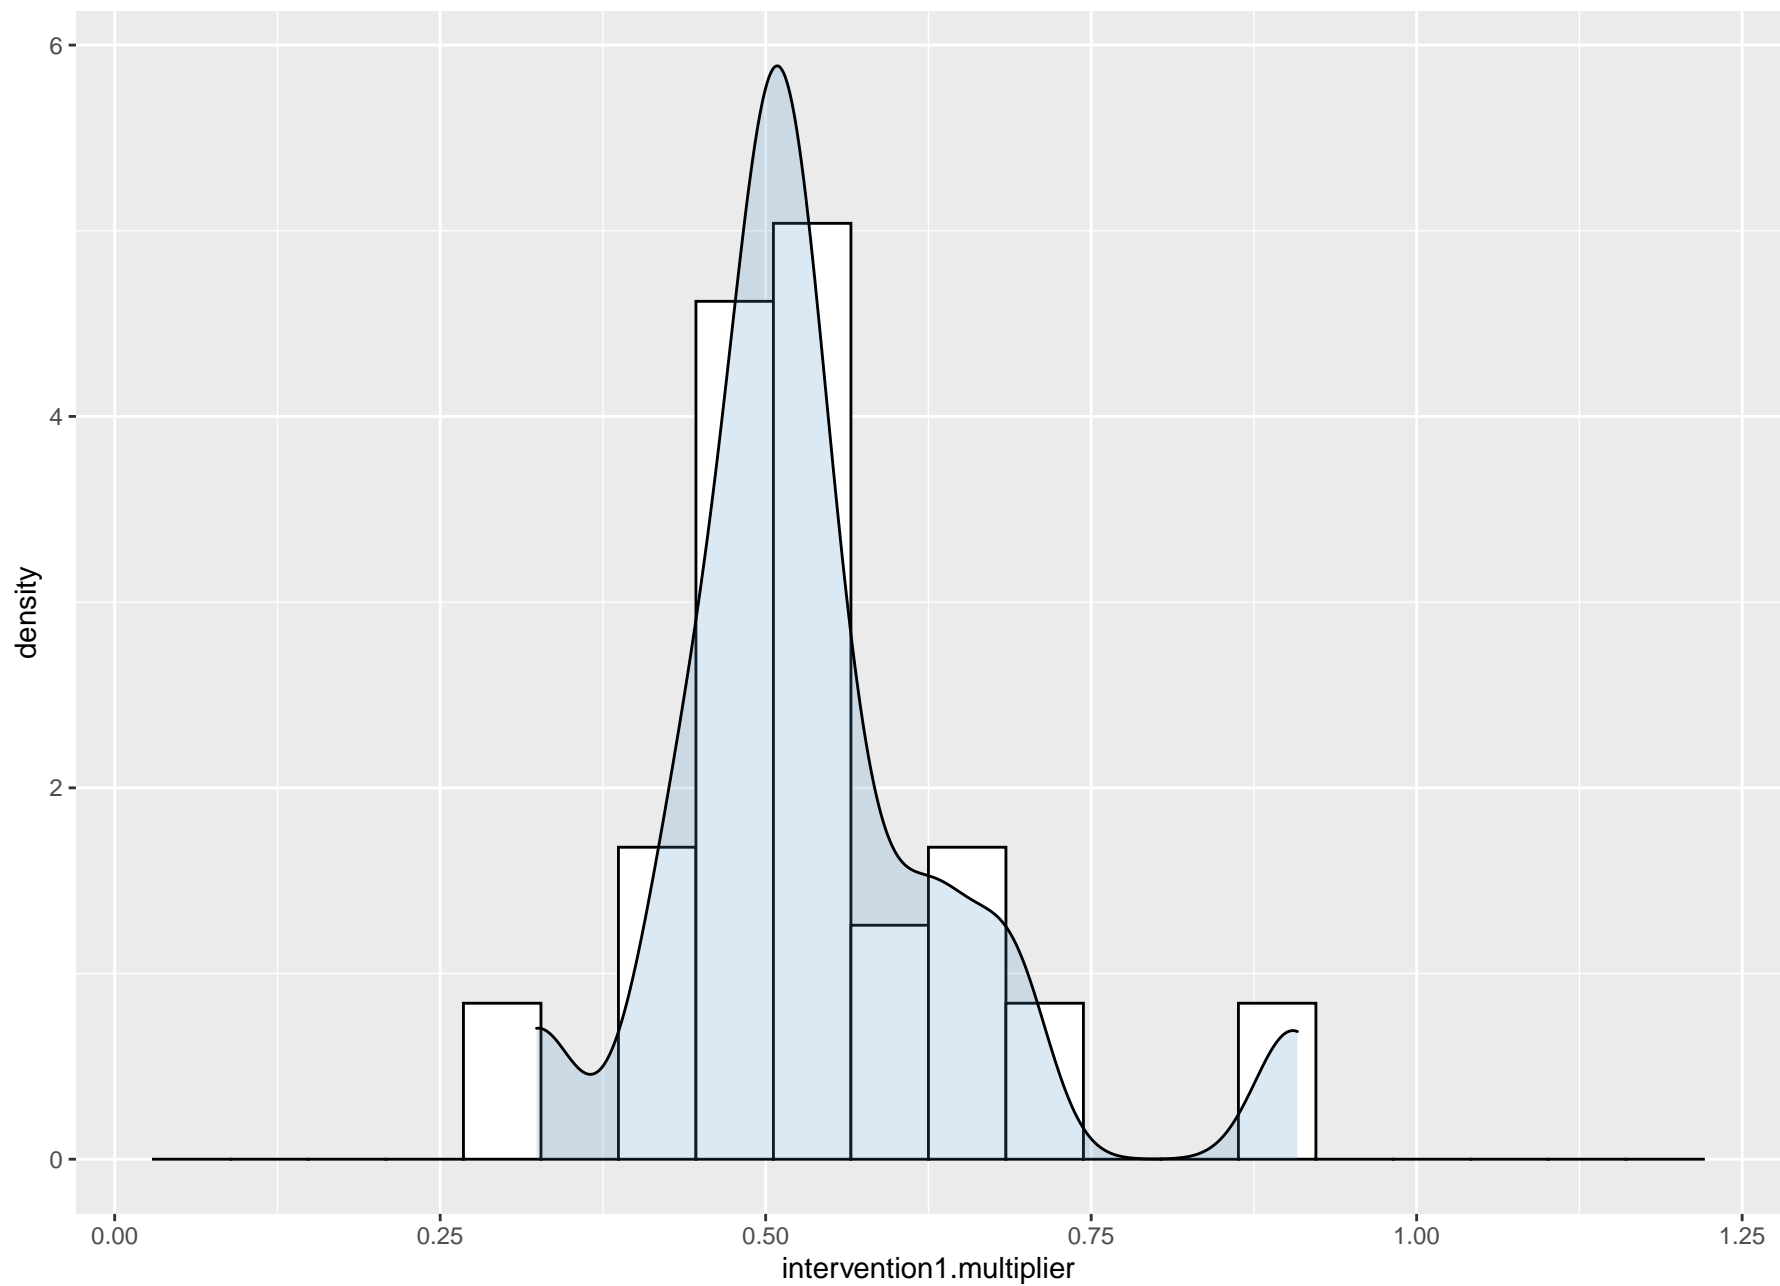

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference

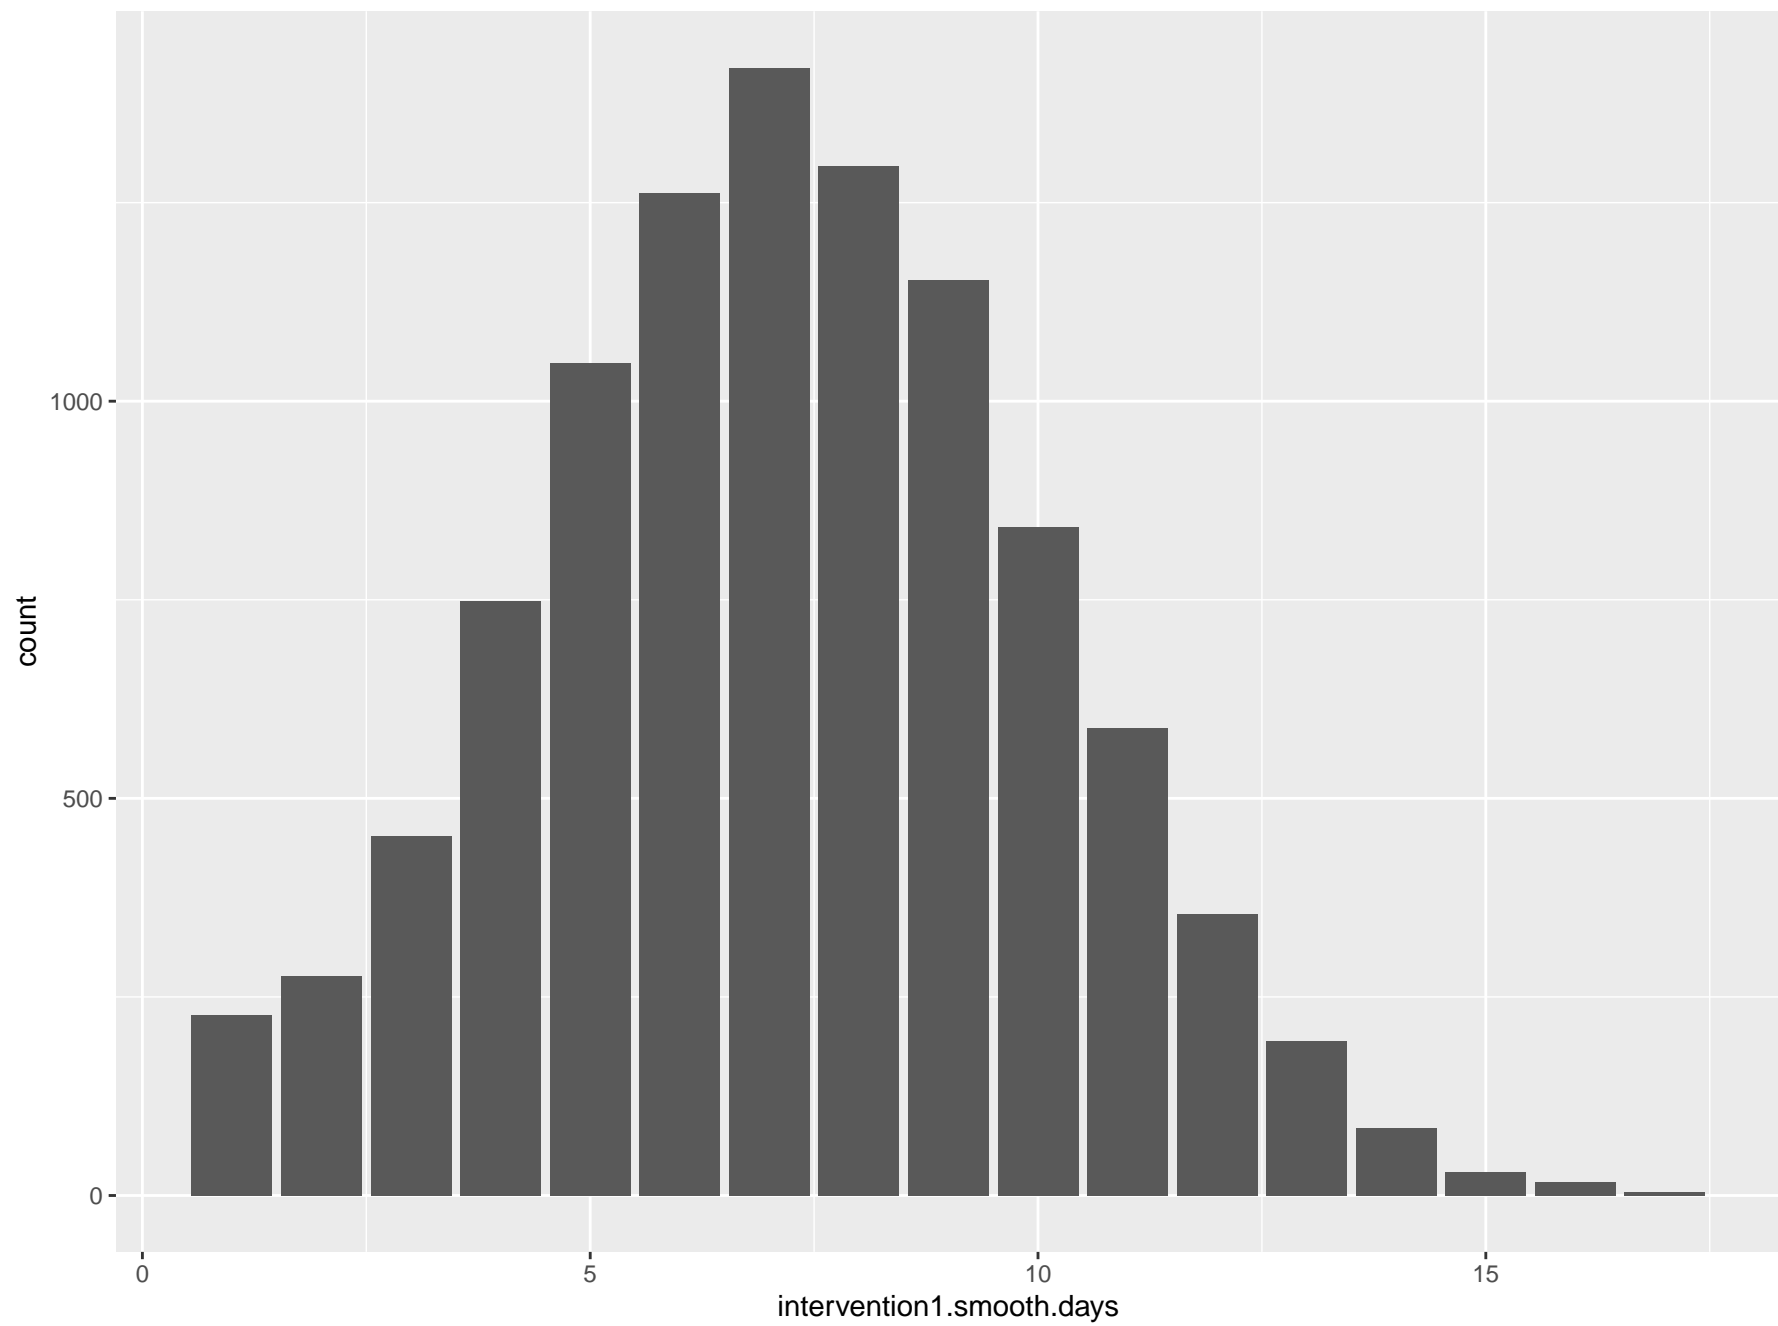

Prior Distribution, niter = 10000

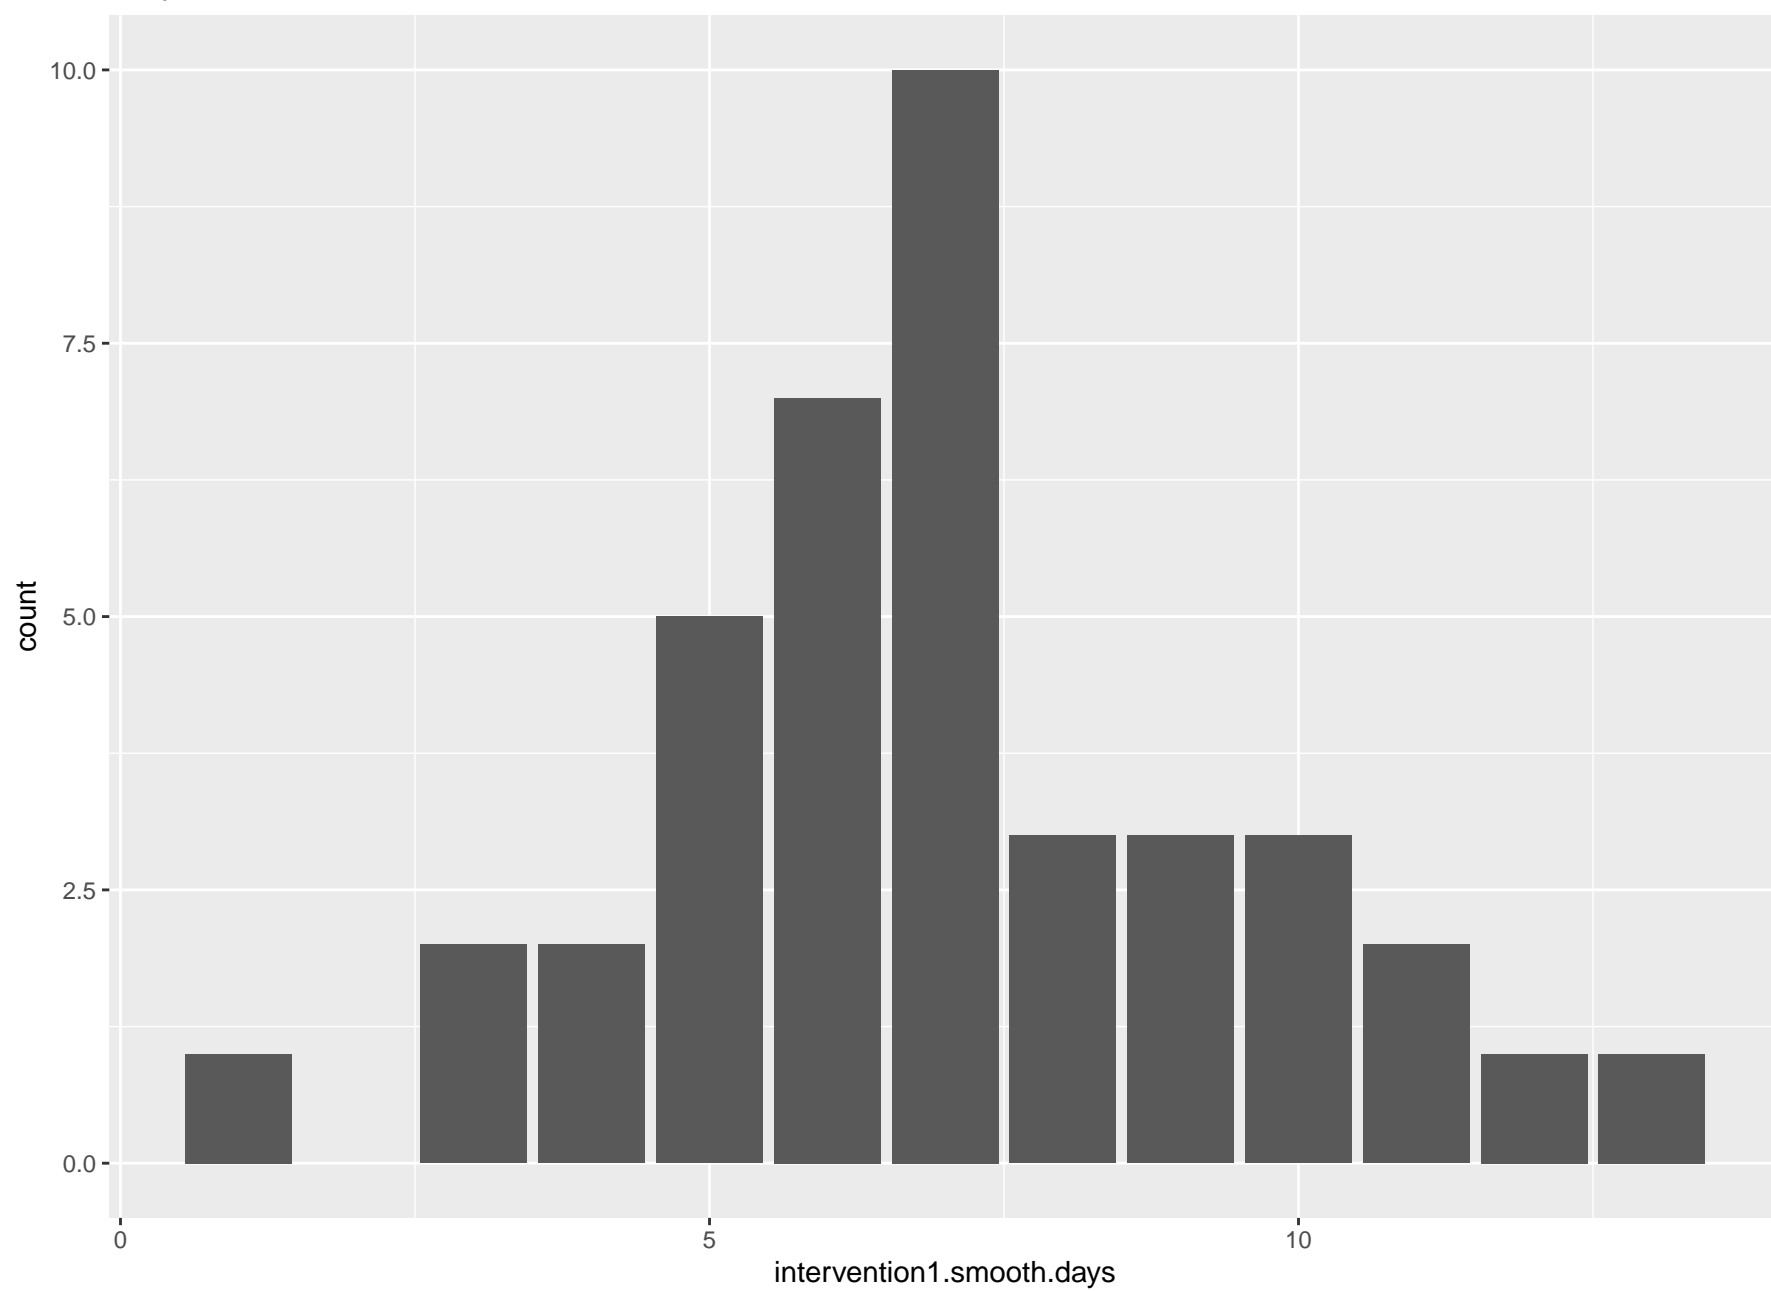

Posterior Distribution, niter = 40
Very low number of iterations, do not use for inference
